31.0 Policy Review45

Safeguarding is everyone's responsibility

All staff working directly or indirectly with children have a duty to protect the welfare of children in the setting. The following people have specific additional responsibilities with regard to safeguarding and must work together to ensure a consistent approach across the setting:

Designated Safeguarding Lead : Bethan Cash

Deputy Designated Safeguarding Lead: Nicola Chokkuea

Safeguarding Lead (Children's Home): Ronan Franklin

Headteacher: Nicola Chokkuea

Safeguarding Governor: Chris Groom

Registered Manager: Ronan Franklin

Responsible Individual: Shane Rowe

Integrated education and care sites and residential schools must ensure their approach and response to all safeguarding matters is consistent. The Designated Safeguarding Lead (DSL) for the School/College and the Safeguarding Lead for the children's home/residential care must communicate with each other regularly and share information as required to keep children and young people safe.

1.0 Policy statement

Outcomes First Group is committed to ensuring that all of the children and young people we educate and care for are effectively safeguarded at all times. This policy sets out how children and young people in our schools, colleges and children's homes will be safeguarded; it applies when working offline and online, in settings and in all virtual communications.

Safeguarding and child protection must always be the highest priority and at the forefront of everything we do. A whole-setting approach is required to ensure safeguarding and child protection are embedded in all decisions, planning, policy and day-to-day operations and activities.

It is essential that everybody working within the Group understands their safeguarding responsibilities.

When carrying out their duties to safeguard and promote the welfare of children, our schools and colleges will, at all times, have regard to [Keeping Children Safe in Education \(KCISE\) 2023](#), issued under [Section 175 of the Education Act 2002](#). This is the statutory guidance from the Department for Education (DfE) that sets out the legal duties that govern all schools and colleges in England educating children.

Staff and senior leaders must read [KCISE 2023](#) as follows:

- Governing bodies, proprietors, school leaders, the DSL and deputy must read the whole guidance document.
- Governing bodies and proprietors must ensure that staff who work directly with children read and understand Part 1 and Annex B.
- Staff who do not work directly with children can read and understand either [Part one](#) or Annex A if it is more effective to enable them to safeguard and promote the welfare of children.

Our settings providing Early Years education have a duty to comply with the welfare requirements of the [Early Years Foundation Stage Framework \(EYFS\)](#) under [Section 40 of the Childcare Act 2006](#)

Safeguarding Policy – Education and Care

Our Children's Homes will safeguard and promote the welfare of children in line with [The Children's Homes \(England\) Regulations 2015](#) and the accompanying [Guide to Children's Homes Regulations including quality standards](#) and the [Care Standards Act 2000](#)

[Working Together to Safeguard Children 2018 \(updated July 2022\)](#) sets out what individuals, organisations and agencies must and should do to keep children safe and emphasises that effective safeguarding is achieved by putting children at the centre and by every individual and agency playing their part.

All staff and volunteers working directly or indirectly with children and young people for Outcomes First Group **must** ensure that:

- Children and young people feel safe and that they are listened to;
- they create an environment and culture in which children and young people feel valued;
- the best interests of the child or young person are always considered and acted upon;
- safer recruitment procedures (set out in the Group's *Safer Recruitment Policy* are rigorously followed;
- they understand their roles and responsibilities in keeping children and young people safe through ongoing learning, development and supervision;
- they understand that children and young people with special educational needs or disabilities (SEND), medical or physical health conditions can face additional safeguarding challenges both online and offline
- they are vigilant in monitoring possible signs of abuse, including for those children and young people who have complex learning difficulties or specific communication needs, who may be particularly vulnerable;
- they are aware that children can abuse other children (i.e. child-on-child abuse) and maintain an attitude of **'it could happen here'**;
- they follow the appropriate procedures in place for sharing safeguarding concerns, including low-level concerns, and these are shared with relevant professionals in a timely manner;
- they understand and implement local safeguarding procedures as set out in local authority arrangements;
- children and young people have opportunity to learn about appropriate relationships with adults and other children and recognise unacceptable behaviour by adults and other children.
- There is a zero-tolerance approach to harassment, violence, abuse, inappropriate behaviour and bullying of any kind are not acceptable and will not be tolerated.

2.0 What is safeguarding and child protection?

2.1 Safeguarding

Safeguarding relates to the action taken to promote the welfare of children to protect them from harm. This policy includes the safeguarding of young adults within Outcomes First Group schools, colleges and children's homes and applies both offline and online.

Safeguarding is defined in [Working Together to Safeguard Children 2018 \(updated July 2022\)](#) as:

- Protecting children from maltreatment;
- Preventing impairment of children's health and development;
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
- Taking action to enable all children to have the best outcomes.

2.2 Contextual Safeguarding

Outcomes First Group adopts a contextual safeguarding approach to safeguarding and child protection. Contextual safeguarding is: *'...an approach to understanding, and responding to, young people's experiences of significant harm beyond their families. It recognises that the different relationships that young people form in their neighbourhoods, schools and online can feature violence and abuse. Parents and carers have little influence over these contexts, and young people's experiences of extra-familial abuse can undermine parent-child relationships. Contextual Safeguarding, therefore, expands the objectives of child protection systems in recognition that young people are vulnerable to abuse in a range of social contexts.'* (Dr Carlene Firmin)

2.3 Child Protection

Child protection is an important aspect of safeguarding and promoting welfare. It refers to the activity that is undertaken to protect specific children who are suffering, or are likely to suffer, significant harm. Effective child protection is essential as part of wider work to safeguard and promote the welfare of children. However, all agencies and individuals should aim to proactively safeguard and promote the welfare of children so that the need for action to protect children from harm is reduced.

2.4 Safeguarding is everyone's responsibility

While local authorities and placing authorities have statutory responsibilities regarding safeguarding, Outcomes First Group believes that safeguarding is everyone's responsibility. The Group expects that, without exception, staff keep children and young people at the centre of all that they do and that any actions taken are in the best interests of the children and young people. We also expect that children and young people are listened to, and their voices are always heard.

2.5 Defining Significant Harm/Child Abuse

2.5.1 The [Children Act 1989](#) introduced the concept of 'Significant Harm' as the threshold that justifies compulsory intervention in family life in the best interests of children. Under [Section 47](#) of the Act, local authorities have a duty to make enquiries to decide whether they should take action to safeguard or promote the welfare of a child who is suffering or is likely to suffer Significant Harm.

2.5.2 Under [Section 31](#) of the Children Act as amended by [Adoption and Children Act 2002](#):
'harm' means ill-treatment or the impairment of health or development, including for example, impairment suffered from seeing or hearing the ill-treatment of another;
'health' means physical or mental health; and
'ill-treatment' includes Sexual Abuse and forms of ill-treatment which are not physical.
Abuse or neglect is not always easy to identify; staff are more than likely to have some information but not the whole picture.

2.5.3 There are four defined categories of child abuse, which are deemed to be forms of 'Significant Harm':

- Neglect
- Physical Abuse
- Emotional Abuse
- Sexual Abuse.

2.5.4 It is also important to be aware that:

- technology is a significant component in many safeguarding and wellbeing issues. Children and young people are at risk of abuse and harm online as well as face to face. In many cases abuse will take place concurrently via online channels and in daily life.
- children can abuse other children (child-on-child abuse), this can happen inside and outside of the School or Home and online.

Safeguarding Policy – Education and Care

2.5.5 'Children may be vulnerable to neglect and abuse or exploitation from within their family and from individuals they come across in their day-to-day lives. These threats can take a variety of different forms, including: sexual, physical and emotional abuse; neglect; exploitation by criminal gangs and organised crime groups; trafficking; online abuse; sexual exploitation and the influences of extremism leading to radicalisation. Whatever the form of abuse or neglect, practitioners should put the needs of children first when determining what action to take' ([Working Together to Safeguard Children 2018 \(updated July 2022\)](#))

Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Harm can include ill treatment that is not physical as well as the impact of witnessing ill treatment of others. This can be particularly relevant, for example, in relation to the impact on children of all forms of domestic abuse. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others. Abuse can take place wholly online, or technology may be used to facilitate offline abuse. Children may be abused by an adult or adults or by another child or children. [KCISE 2023](#)

All staff must be aware of the signs and indicators of child abuse (Please see 7.6 for further information)

Where a child is suffering, or is likely to suffer from harm, it is important that a referral to local authority children's social care (and if appropriate the police) is made immediately. Referrals should follow the local referral process.

3.0 Local Arrangements for the School and Children's Home

- 3.1 All staff must be aware of the local arrangements for safeguarding relevant to the school in which they work;
- 3.2 The local arrangements for Overton School are as follows
- 3.3 Overton School safeguarding arrangements are in line with local safeguarding partnership arrangements. The Shropshire County Council safeguarding partnership consists of the three safeguarding partners (the local authority; a clinical commissioning group for an area within the local authority; and the chief officer of police for a police force in the local authority area).
- 3.4 The Local Authority Designated Officer or equivalent is:
Ellie Jones/Michelle Taylor
0345 678 9021 lado@shropshire.gov.uk
- 3.5 All safeguarding referrals must be reported to the local authority - First Point of Contact team (FPOC) on 0345 678 9021 Monday to Thursday, 9am to 5pm, and Friday 9am to 4pm. Any urgent adult safeguarding concerns outside of these hours, must be contacted via COMPASS 01743250400, Emergency Duty Team on 0345 678 9040 selecting option 1 or 01743 249544. Referrals for children and young people under 18 will be dealt with under the Children's safeguarding arrangements, whereas those 18 and above will be dealt with under the Adult safeguarding arrangements.
- 3.6 The Shropshire safeguarding referral procedure is:

Professionals in all agencies have a responsibility to refer a child to local authority children's social care when it is believed or suspected that the child or unborn child:

- has suffered significant harm
- is likely to suffer significant harm
- has a disability, developmental and welfare needs which are likely only to be met through provision of social work led family support services (with agreement of the child's parent) under the Children Act 1989
- is a Child in Need whose development is likely to be impaired without provision of services.

Before making a referral it is important that professionals understand their responsibilities particularly in relation to:

- listening to the child
- consulting parents (normally a referral should only be made with the knowledge and informed consent of at least one person who holds parental responsibility, although there are exceptions to this)
- considering diversity
- seeking urgent medical attention
- sharing information, and
- the information that will be required when making a referral. Professionals should also familiarise themselves with the relevant threshold/level of need criteria.

Making a referral

Referrals should be made to the local authority children's social care for the area where the child is living or is found. For these purposes, 'found' means the physical location where the child suffers, or is identified to be at risk of, harm or neglect.

If the child is known to have an allocated social worker, the referral should be made to them, or in their absence to the social worker's manager/the duty children's social worker. Referrals should not be delayed if the child's allocated social worker cannot be contacted.

Pre-birth referrals should be made as early as possible so that a full assessment can be undertaken and support offered to enable the parent/s (wherever possible) to provide safe care. For more information, read the section on pre-birth referral.

Where a child or young person is admitted to a mental health facility, practitioners should consider whether a referral to local authority children's social care is necessary.

Where there are concerns about a child, these should be raised as per local procedures, often via the Multi-Agency Safeguarding Hub (MASH) or similar 'front-door' arrangements. Current referral arrangements, threshold/level of need criteria documents, referral forms, and contact numbers (including referrals outside of normal working hours) for each of the areas are available for each local area.

Information required for referrals

The referrer should outline their concerns and will be asked to provide information to explain what they are concerned about and why, particularly in relation to the welfare and immediate safety of the child.

If an assessment (such as an early help assessment) has been completed prior to the referral, these details should be provided. Any information the referrer has about the child's developmental needs and the capacity of their parents and carers to meet these should also be provided.

The referrer will discuss their concerns with a qualified social worker and is likely to be asked for the following information:

- Full names (including aliases and spelling variations), date of birth and gender of all children in the household.
- Family address and (where relevant) school/nursery attended.
- Identity of those with parental responsibility and any other significant adults who may be involved in caring for the child such as grandparents.
- Any other known adults in the household (such as lodgers) or adults who frequently visit the household.
- Names and date of birth of all household members, if available.
- Where available, the child's NHS number and education Unique Pupil Number (UPN) number.
- Ethnicity, first language and religion of children and parents/carers.
- Any special needs of children or parents/carers.
- Any significant/important recent or historical events/incidents in child or family's life.
- Cause for concern including details of any allegations, their sources, timing and location.
- Child's current location and emotional and physical condition.
- Whether the child needs immediate protection.
- Details of alleged perpetrator, if relevant.
- Referrer's relationship and knowledge of child and parents/carers.
- Known involvement of other agencies/professionals (for example, GP).
- Whether the parents know about, and whether they have consented to, the referral.
- The child's views and wishes, if known.

The referrer must not delay making a referral because they lack some of the information as the welfare of the child is the priority.

Professionals making a referral should confirm verbal and telephone referrals in writing within 48 hours.

Recording

The referrer should keep a formal record, whether hardcopy or electronic, of:

- discussions with the child
- discussions with the parent/carer
- discussions with their managers
- information provided to local authority children's social care
- decisions and actions taken (with time and date clearly noted, and signed).

Responding to a referral

Local authority children's social care must make a decision about the course of action to be taken within one working day of receiving a referral. The social worker will make a professional judgment as to what type and level of help and support is needed, record this, and feedback in writing to the referrer, all relevant agencies, the child and their family.

The police must be informed at the earliest opportunity if a crime may have been committed. The police will decide whether to commence a criminal investigation and a discussion should take place to plan how parents are to be informed of concerns without jeopardising police investigations.

The immediate response to referrals may be:

- No further action at this stage.
- Signposting to other agencies and services.
- Re-direction to appropriate early help arrangements.
- Provision of services.
- Emergency action to protect a child.
- An assessment of needs with a stated timescale and plan including regular reviews.
- A section 47 strategy meeting/discussion.

If a response is not received within three working days, the referrer should contact local authority children's social care again and, if necessary, ask to speak to a line manager to establish progress.

If the referrer disagrees with the decisions made by another agency, they may consider raising their concerns under the relevant local multi-agency escalation policy.

The child and parents/carers should be routinely informed about local procedures for raising complaints and local advocacy services.

Where there is to be no further children's social care action, feedback should be provided to the child, the family and referrers. This should include the reasons why a case may not meet the statutory threshold to be considered by local authority children's social care for assessment and suggestions for other sources of more suitable support.

Where it becomes clear that statutory intervention maybe needed, local authority children's social care is responsible for making rigorous enquires to map who is involved in that child and family's life.

Stage 1 - assessment

If a referral to Children's Social Care is made, it will usually be dealt with within 24 hours, having collected some key information about the concern or allegation. If it appears that the concern or allegation is founded a social worker will be asked to start an assessment, which could take up to 45 days, but may be completed very quickly (eg if it appears that a child is seriously at risk).

If there are serious risks to a child, it may be necessary to take immediate action to protect the child(ren) concerned. In extreme cases, this can result in children being temporarily cared for by a foster carer.

All referrals will be considered by a social worker in Children's Services, and an assessment may be conducted.

Stage 2 - child in need

The Child in Need team will assess whether a 'child in need plan' is required.

Safeguarding Policy – Education and Care

Stage 2 - strategy discussion

If it looks like abuse has happened or might happen, the social workers and others, like teachers or the police, will hold a meeting called a strategy discussion to decide whether a child protection enquiry is necessary (see the next stage).

Stage 3 - child protection enquiry

If an enquiry is started, this will involve a social worker and the police assessing the concerns or allegations. The child(ren) and parents will be involved in this process.

Stage 4 - initial child protection conference

At the end of the child protection enquiry, an 'initial child protection conference' will be conducted, chaired by an independent conference chair. Parents will be invited to this meeting

3.7 Decision Making

This guidance identifies four levels to ensure all children receive the support and intervention they need to achieve a positive life experience. Of central importance in understanding where a child's needs might lie on this continuum, is the cooperation and engagement of parents and carers and we aim to develop good, professional relationships to ensure that we have a shared understanding of each child's needs.

It should be noted that if parents demonstrate a lack of co-operation or appreciation about the concerns we identify, this may raise the level of the need and required level of action.

Level 1 – Universal

Children with no additional needs and where there are no concerns. Typically, these children are likely to live in a resilient and protective environment where their needs are met. These children will require no additional support beyond that which is universally available.

Consent must be sought to access services and share information with others. Any information sharing between agencies without consent must be clear as to its legal basis.

Ensure privacy information is shared with the family and a consent form completed.

Support is provided by services identified as universal in local communities and are available to all. These include: schools, colleges, early years and childcare provision, primary healthcare provision (i.e. GP, hospitals), and the voluntary and community sector.

Universal support will most likely be provided by a single agency and/or existing support from family, friends, the community.

It is these Universal Services who are best placed to ensure children and families have access to the Early Help Offer. The needs of the child/young person are appropriately met within this framework. Universal Services are constant and remain involved if/when the child/family move up to other levels of need.

Level 2 – Children in need of Early Help

These children can be defined as needing some additional support without which they would be at risk of not meeting their full potential.

Their identified needs may relate to their health, educational, or social development, and are likely to be short term needs. If ignored these issues may develop into more worrying concerns for the child.

In addition to the Whole Family Assessment, specific local tools and pathways should be used where there are concerns about possible harm to the child.

Early Help aims to provide a multi-agency response when a single agency is not able to progress and help the child and their family.

Safeguarding Policy – Education and Care

The existing single agency or multi-agency team should work with the family and each other to complete a Whole Family Assessment and Action Plan.

At this stage a lead professional/practitioner should be identified who can build a relationship with the whole family and ensure that the whole family's needs are met and any actions progressed.

Consent must be sought to access services. Any information sharing between agencies without consent must be clear as to its legal basis.

Ensure privacy information is shared with the family and a consent form completed.

Level 3 –Targeted Early Help

This level applies to those children identified as requiring targeted support and who meet at least 2 of the 6 Strengthening Families criteria in the Whole Family Assessment. It is likely that for these children their needs and care are compromised.

These children will be those who are vulnerable to harm or experiencing adversity. In addition to the Whole Family Assessment, specific local tools and pathways should be used where there are concerns about possible harm to the child.

These children are potentially at risk of developing acute/ complex needs if they do not receive targeted early help.

If a child continues to have unmet needs which cannot be met by Universal or Early Help support, then the existing single agency or multi-agency team should work with the family and each other to review the Whole Family Assessment and Action Plan and follow the Request for Intervention Pathway to request more intensive family support from a Targeted Early Help Family Support Worker.

Consent must be sought from the family to access services. Any information sharing between agencies without consent must be clear as to its legal basis.

Ensure privacy information is shared with the family and a consent form completed

Level 4 – Complex Significant Needs

These are children whose needs and care at the present time are likely to be significantly compromised and or they are suffering or likely to suffer significant harm and so who require intervention from Shropshire Council Children's Social Care.

An immediate referral to Compass should be made for assessment under Section 17 or Section 47 of the Children Act 1989.

Specific local tools and pathways and the Shropshire Threshold Matrix should be used to support their referral and help practitioners to assess significant harm to the child.

Child in Need

Section 17 of the Children Act (1989) states that a child shall be considered in need if:

- They are unlikely to achieve, maintain or have the opportunity of achieving or maintaining a reasonable standard of health or development without the provision of services by a local authority.
- Their health and development is likely to be significantly impaired, or further impaired, without the provisions of such services

and/or;

- They are disabled.

Child Protection

Section 47 of the Children Act 1989 states that the authority shall make necessary enquiries to enable them to decide whether they should take action to safeguard or promote the child's welfare where there is reasonable cause to suspect a child is suffering or likely to suffer significant harm.

Where it is suspected that a child may be suffering or be at risk of suffering significant harm; referring practitioners must inform parents or carers that they are making a referral to Compass, and seek consent unless to do so may:

- Place the child at increased risk of significant harm; or
- Place any other person at risk of injury; or
- Obstruct or interfere with any potential Police investigation; or
- Lead to unjustified delay in making enquiries about allegations of significant harm.

Guidance for assessment practice can be found on page 13 of the Shropshire Threshold document.

(Taken from: Multi-agency Guidance on Threshold Criteria to help support Children, Young People and their Families in Shropshire 2021) Threshold Document

If you identify that a child has complex significant needs and/or is suffering or at risk of suffering significant harm then you must make a referral to Compass via Shropshire Council's First Point of Contact (FPoC) on 0345 678 9021 and complete and send a Multi-Agency Referral Form (MARF) within 24 hours. If you think the child is in immediate danger, call West Mercia Police on 999.

This Multi-agency Referral Form (MARF) should be used in conjunction with the local procedure 3.14: Threshold guidance, in order to support you to make a good quality referral to Children's Social Care or Targeted Early Help Services. Shropshire takes a holistic approach to safeguarding all children in our care and recognise that different families need a different level of support at different times. To enable us to recognise at which level a family might require support; we use the Shropshire Safeguarding Community Partnership Multi-Agency Guidance on Threshold Criteria to help support Children, Young People and their Families in Shropshire. Shropshire Threshold Document

MARF (Multi Agency Referral Forms) found here <https://westmidlands.procedures.org.uk/local-content/zgjN/multi-agency-referral-reporting-concerns-marf/?b=Shropshire> should be completed should be shared securely through the following contact email address:- compass.referrals@shropshire.gov.uk

The Shropshire COMPASS video was revised on 1st April 2021. This video covers what to do when there is a concern about the welfare of a child in Shropshire, when consent from the child or family is needed, the process of making a referral to Targeted Early Help Services or Children's Social Care and the importance of referring to Shropshire's Children's Threshold Document. All professionals that make referrals into COMPASS need to be given the opportunity to view the video.

Safeguarding Policy – Education and Care

Transcript for Changes to Shropshire Compass Podcast 2021. Version 4. April 2021

1. If you have a concern about the welfare of a child, you can phone Shropshire Council's First Point of Contact (FPOC), they are the part of the customer call centre for council enquires relating to children. They are highly skilled and trained to deal with your enquiry and will help direct your call to the most appropriate service. Before you call FPOC it is important that you refer to the Thresholds Guidance shown 'Meeting the needs of children and families in Shropshire', including Appendix 1 which is the Threshold Matrix, and speak to your Designated Safeguarding Lead.

2. The windscreen shown is based on the principle that support should be provided as soon as possible, at the lowest level proportionate to the assessed needs of the child (including any unborn children). The aim is to step up support to children and families if and or when there are new or further concerns, to prevent things becoming more difficult while the child and family continues to receive Universal support.

When concerns for a child or family are present, involved agencies at all levels should work with the child, family and each other to ensure that their needs are met. Once needs are being met, levels of support can then be stepped down.

3. Universal support is provided to all children within their local communities by schools, colleges, early years and childcare provision, primary healthcare provision (for example GP and hospitals), and the voluntary and community sector. Typically, these children will have no additional needs and are likely to live in a resilient and protective environment where their needs are met.

4. Early Help (in yellow) could be a single or multi-agency response for children who can be defined as needing some support in addition to universal services. Without this additional support they would be at risk of not meeting their full potential.

Their identified needs may relate to their health, educational, or social development, and are likely to be short term needs. If ignored these issues may develop into more worrying concerns for the child.

5. At this point, agencies may be working with the family alongside other professionals but in most cases this is where a single agency is offering some level of additional support to the child or family, for example including the child in a nurture group or health offering a universal plus service to the family.

Family support is not a one size fits all, it will depend on individual circumstances.

6. Where a multiagency response is required for the family at this level it may include for example, school, nursery, youth club, health visitor or housing officer and family meetings may be taking place.

Importantly, a Lead Professional will co-ordinate the multi-agency response, this ensures that families don't have to repeat their story to multiple professionals. The existing single agency or multi-agency team should work with the family and each other to complete a Whole Family Assessment and Action Plan.

This vital and important work helps to keep children safe.

7. Targeted Early Help (in orange) is where support for a family has been considered and it has been agreed with the family that they would benefit from a more targeted and intensive level of expertise to address specific support needs, which again will include input from several agencies, coordinated by a lead professional.

8. The lead professional will usually be a worker from a targeted early help service who will work alongside a range of agencies for example, a targeted early help service, a school, a health service, housing provider or domestic abuse service. This will depend on the needs of the whole family.

9. An Early Help Family Hub is where children, young people and their families can access services for help and support, not just from the local authority but from a range of providers offering holistic, early intervention services to a whole community. Early help services across the county provide whole family support, dealing with all the issues a family faces, with their full involvement and consent. These services are delivered through six Early Help Family Hubs across the county, which are also designated Children's Centres.
10. Young people, parents, carers and professionals can all access Targeted Early Help services, more information is available on the Early Help website that's shown, or FPOC can be contacted by telephone.
Professionals can also refer through the Early Help Module on LiquidLogic, for more information please look at the early help practitioner pages on the website.
11. Before progressing a request for intervention, it is important to gain consent covering all members of the family, for more information please refer to the Children's Threshold Document.
You can phone FPOC for further guidance or to arrange a consultation with a member of the Early Help team. FPOC will offer advice and liaise with the relevant Early Help Family Hub, who may contact you for more information and will support you to complete an early help assessment and request for intervention, if necessary.
12. Children who have complex and significant needs are shown in red. Children's Social Care work with children who have these needs. For child protection referrals where it is suspected that a child may be suffering or be at risk of suffering significant harm, Children's Social Care do not always need consent of the parent or carer.
13. As a professional you must always consider consent before phoning FPOC, it is considered good practice to inform an adult with parental responsibility that you are making a referral unless to do so may:
either
- Place the child at increased risk of significant harm
 - Place any other person at risk of injury
 - Obstruct or interfere with any potential police investigation
- or
- Lead to unjustified delay in making enquiries about allegations of significant harm
- In all other situations consent is required and without it your contact into Children's Social Care cannot progress.
14. You can call FPOC when you have concerns about a child that you think requires children's social care intervention. FPOC will take basic details and concerns about the family and put your call through to Compass. Compass will make a decision about the child's needs and whether or not your contact is a referral to Children's Social Care. In all situations where Children's Social Care do not consider a child to be at risk of significant harm, the child's parent or carer must consent to Children's Social Care being involved.
15. Children's Social Care send parents a letter telling them that your agency, organisation or place of work has contacted them and whether the contact has been accepted as a referral, as a professional you will be sent an email letting you know the outcome.
16. If parents or carers do not consent but you still have a concern it is okay to phone Compass via FPOC to have a professional discussion using the Children's Thresholds Document shown, titled 'meeting the needs of children and families in Shropshire.' However, be prepared for Children's Social Care to ask you to go back to the family to gain consent if the thresholds for significant harm are not

met

17. There are several ways that concerns can be shared with Compass.
18. A planned, booked appointment needs to be agreed for those who wish to go in person to Compass, all other visits are prohibited while we are living with and safely managing COVID 19
19. As already highlighted, through FPOC.
20. After referring through FPOC you will still need to complete a Multiagency Referral Form (MARF) within 24 hours, referrers should never just email a MARF in relation to child protection concerns as it may not be responded to quickly
The completed MARF is very helpful in evidencing professional concerns and how the situation meets the threshold for a referral and Children's Social Care intervention.
21. Through information that's been shared via Domestic Violence triage meetings which happen every weekday at Mount McKinley, and via MARAC (Multiagency Risk Assessment Conference), Exploitation triage and panel meetings and MAPPA (Multi Agency Public Protection Arrangements)
22. So, to report concerns about a child that require Children's Social Care interventions, Phone FPOC, you will then either be connected to Compass or the child's Allocated Team. If the child's social worker is not available, you can leave a message or speak to a duty worker who will respond to any urgent matter
23. If you know the family has a social worker call direct to either the Case Management Team, Disabled Children's Team, Initial Assessment Team or Looked After Children's Team. If the child's social worker is not available again you can leave a message or speak to a duty worker who will respond to any urgent matter.
24. Here's the complete overview of how to report concerns about a child.
25. When a social worker is knocking at the door, if the parent is expecting the social worker and has given consent in recognition of their difficulties, the social worker will be welcomed and asked to come in and an open conversation will take place about the concerns for their child.
26. If the 'consent' conversation did not take place when there were initial concerns there's often a damaged relationship with the referrer. Parents feel that the referrer has not been honest and open and are understandably defensive and uncooperative. The result is often that the parents do not fully engage with the assessment process and refuse any on-going support. Honest and open conversations are crucial to ensure that children are safeguarded and reach their potential.
27. To summarise, families should always know what information is being shared unless it increases risk for the children. You must always consider seeking consent and having these difficult conversations with parents and carers.
28. The MARF must be completed in every case by a professional who is seeking access to children's social care. Please make sure that the details you put in the MARF reflect the concerns that you've given verbally over the phone. If a child is at risk of significant harm, a phone call to FPOC in the first instance will be enough and consent is not expected in these situations. As the MARF needs to be sent securely within 24 hours of making the initial phone call to FPOC a password will need to be applied to the email.

Safeguarding Policy – Education and Care

29. Shropshire Safeguarding Community Partnership and all partner agencies are committed to open and transparent joint working to safeguard and promote the welfare of children. Raising questions, challenging, and escalating concerns where appropriate, quickly and clearly, is seen as a positive approach to practice and continuing improvement in how we protect and meet the needs of children in Shropshire. If you disagree with the outcome of your contact into Compass, you need to follow this Escalation policy.
30. There is another route for support if you have an immediate or significant concern about a child or young person's mental health. Please contact the Children's mental health and wellbeing service Bee U
31. And finally you will find useful information and resources on these websites. Thank you for playing this short video and please share these messages widely to professionals in Shropshire.
- <https://shropshire.gov.uk/early-help/>
<http://www.safeguardingshropshireschildren.org.uk/>
<https://westmidlands.procedures.org.uk/>

3.7 For all referrals regarding radicalisation:

Any practitioner identifying concerns about the child or young person should report them to the designated safeguarding lead in their organisation, who will discuss these concerns with the police. The Local Safeguarding Referrals Pathway Procedure should be followed. Consideration of referrals to the Channel programme may be appropriate in some cases. Response should be proportionate, with the emphasis on supporting vulnerable children and young people, unless there is evidence of more active involvement in extremist activities.

Consideration should be given to the possibility that sharing information with parents may increase the risk to the child and therefore may not be appropriate. However, experience has shown that parents are key in challenging radical views and extremist behaviour and should be included in interventions unless there are clear reasons why not.

Wherever possible the response should be appropriately and proportionately provided from within the normal range of universal provision of the organisation working with other local agencies and partners. Responses could include curriculum provision, additional tutoring or mentoring, additional activities within and out of school and family support.

Where a higher level of targeted and multi-agency response is indicated a formal multi-agency assessment should be conducted. The assessment process may lead to a Strategy Discussion, Section

Enquiries and an Initial Child Protection Conference, if there are concerns about the child or young person suffering significant harm.

Where concerns are identified in respect of potential signs of radicalisation which indicate the child or young person is vulnerable, the person raising the concerns should discuss their concerns with the Local Authority Prevent officer or CT WMCTU Gateway CTU_GATEWAY@west-midlands.pnn.police.uk; who will advise on whether a referral to Channel Panel or other Safeguarding response.

The designated lead should contact West Mercia Prevent Team:
0800 011 3764,
Prevent@westmercia.pnn.police.uk

Where there is an identified risk that a child or young person may be involved in supporting or following extremism, further investigation by the police will be required, prior to other assessments and interventions.

3.8 For all referrals regarding exploitation:

Shropshire Safeguarding Community Partnership (SSCP) have agreed the following overarching definition of exploitation:

Exploitation is a form of abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child, young person or adult (including those with care and support needs) into: into any activity that results in financial or other advantage for the perpetrator or facilitator. Activity includes arranging or facilitating the involvement or travel (trafficking) of a child, young person or adult (including those with care and support needs)

Specific types of exploitation include:

Modern Slavery (including human trafficking)

Sexual Exploitation

Criminal Exploitation

Financial Exploitation

Any other Exploitation that enables services or benefits of any kind, including: Forced marriage, Illegal adoption, Removal of organs.

The victim may still be exploited even if the activities that they are engaging in appear consensual. Multiple types of exploitation can occur alongside or as part of other forms of abuse.

Children and young people who are exploited are the victims of child abuse, and their needs require careful assessment. SSCP has developed child exploitation guidance for practitioners and an initial assessment tool that will help you assess the level of risk to a child and make a referral, if appropriate.

3.9 The Shropshire County Council procedure for an early help referral is:

Schools are an important element of the early help offer in Shropshire. They play a key role in not only recognising and identifying children and families who are vulnerable and who have a variety of additional needs, but also in delivering services and support to children, young people and families. This support and intervention may be delivered at a universal level or at a targeted level in school, or in partnership with an outside agency.

A variety of models and levels of early help provision exists in schools, with some schools commissioning or employing additional staff as family support workers, and others using learning mentors to engage the wider family. Some schools work creatively in clusters, sharing resources and working together in partnership with other services to deliver early help.

Having identified and assessed an early help need, schools may take one of the following approaches.

1. Help to prevent needs arising further through:

- Universal early help
- Understanding your child/teen courses and workshops
- Signposting to information or other services, eg health visitor, school nurse etc
- Targeted Mental Health Support (TAMHS) whole school approach
- Personal, social and health education (PSHE), including sexual exploitation awareness

2. Address unmet need through:

- Targeted early help in schools
- 'Understanding your child/teen' courses and workshops
- Targeted Mental Health Support (TAMHS) intervention, eg anger management, relaxation
- Family support worker
- Learning mentor
- Parent support adviser
- PSHE specific support, eg Empower programme
- Family learning

3. Working with outside agency in:

- Partnership through referral or consultation with Compass
- Use of early help targeted and universal support in school with support from outside agency:
 - o Targeted Youth Service (TYS)
 - o EnHance

Safeguarding Policy – Education and Care

- o Children's centres
- o Early help social workers
- o Lifelines
- o Young Carers Support
- o Employment advisers
- o Information, advice and guidance (IAG)
- o Education Access Service
- o CAMHS

Contact Early Help
0345 678 9021

3.10 The Chair of Governors for Overton School is: Chris Groom

3.11 The Outcomes First Group Head of Safeguarding/Safeguarding Adviser is anne-marie.delaney@ofgl.co.uk and can also be contacted at: safeguarding@ofgl.co.uk

3.12 The responsible individual for Overton School Care home is :Shane Rowe.

4.0 The role of governors, the proprietor and senior managers

The requirements in this section are statutory requirements for schools and colleges and should be applied as good practice in children's homes by senior leaders.

4.1 Governing bodies and proprietors have a strategic leadership responsibility for their school's safeguarding arrangements and must ensure that they comply with their duties under legislation. They must read and have regard to the whole [KCSiE 2023](#) guidance document, ensuring policies, procedures and training in their schools are effective and comply with the law at all times. They must have oversight of the safeguarding policies and procedures and ensure that they are being effectively implemented within the School and that training is effective.

Like teaching staff and volunteers, senior managers and Governors must be safely recruited and have all relevant checks on file. Please refer to section 8.0 and the Group's *Safer Recruitment Policy* and for further information.

4.2 Governing bodies and proprietors should:

- Have a senior board level (or equivalent) lead to take **leadership** responsibility for their schools safeguarding arrangements'. The named Governor for the School is Chris Groom
- Ensure that the School contributes to multi-agency working in line with [Working Together to Safeguard Children 2018 \(updated July 2022\)](#)
- Be aware of the local multi-agency safeguarding arrangements.
- Receive appropriate safeguarding and child protection (including online safety) training at induction to equip them with the knowledge to provide strategic challenge to test and assure themselves that the safeguarding policies and procedures in the School are effective and support the delivery of a robust whole school approach to safeguarding. Their training should be regularly updated.
- As part of the whole school safeguarding approach, they must create a culture that safeguards and promotes the welfare of children and young people in their setting. This includes ensuring that robust recruitment procedures are in place that deter and prevent people who are unsuitable to work with children and young people from applying for or securing employment, or volunteering opportunities in schools.
- Be responsible for ensuring an appropriate senior member of staff, from the School leadership team, is appointed to the role of **Designated Safeguarding Lead (DSL)**. With the support of governors, proprietors and senior leaders, the DSL should take lead responsibility for safeguarding and child protection (including online safety and understanding the filtering and monitoring systems and processes in place). **This should be explicit in the role-holder's job description.**
- Be aware of their obligations under the [Human Rights Act 1998 \(HRA\)](#) and the [Equality Act 2010](#), which require schools to:
 - Act in a way that respects and protects an individual's human rights when they make individual decisions about them. In particular, the right to: education, freedom from inhuman and degrading treatment, and respect for private and family life. These rights must be protected and applied without discrimination.
 - Carefully consider how children and young people are supported with regard to particular protected characteristics, including disability, sex, sexual orientation, gender reassignment and race. Proportionate positive action can be taken to deal with particular disadvantages affecting children and young people with a protected characteristic to meet their specific need. This includes a duty to make reasonable adjustments for disabled children and young people and those with long term conditions.
 - Guidance to help schools understand how to fulfil their duties under the Equality Act (2010) is available on the DFE website: [Advice for schools](#)

Safeguarding Policy – Education and Care

- Ensure that children and young people are taught about how to keep themselves and others safe, including online. This education should be tailored to the specific needs and vulnerabilities of individual children and young people.
- Do all that they reasonably can to limit children and young people's exposure to online risks from the School's system, including:
 - Ensuring the School has appropriate filters and monitoring systems in place, that are informed in part by the risk assessment required by the [Prevent Duty](#), and that their effectiveness is regularly reviewed.
 - Work closely with senior leaders, the DSL and IT service providers in all aspects of filtering and monitoring.
 - Ensuring that the School leadership team and relevant staff have an awareness and understanding of the appropriate online filtering and monitoring provisions in place, manage them effectively and know how to escalate concerns when identified.
 - Consider the age and developmental age of their children and young people, the number of children and young people and their needs, how often they access the IT system and the proportionality of costs versus safeguarding risks.
- Adhere to the DFE guidance [Meeting digital and technology standards in schools and colleges](#) that requires schools to:
 - identify and assign roles and responsibilities to manage filtering and monitoring systems.
 - review filtering and monitoring provision at least annually.
 - block harmful and inappropriate content without unreasonably impacting teaching and learning.
 - have effective monitoring strategies in place that meet their safeguarding needs
- Review the standards and discuss with IT staff and service providers what more needs to be done to support schools and colleges in meeting this standard.

[Cyber security standards for schools and colleges](#) can be found here and broader guidance on cyber security including considerations for governors and trustees can be found at [Cyber security training for school staff - NCSC.GOV.UK](#)

4.3 Where there is a safeguarding concern, governing bodies, proprietors and senior leaders should ensure the children and young people's wishes and feelings are taken into account when determining what action to take and what services to provide. This has to be balanced with their duty to protect the victim and other children and young people.

4.4 Where the School premises are used for non-school activities and the services or activities are provided under the direct supervision or management of the School staff, the School's arrangements for child protection and safeguarding apply. Where service or activities are provided by another body, the School must seek assurance that the body concerned has appropriate safeguarding and child protection policies and procedures in place and ensure they will liaise with the School on these matters as appropriate. This applies regardless of whether or not the children who attend any of these services or activities are pupils on the school roll.

The governing body or proprietor should also ensure safeguarding requirements are included in any lease or hire agreement, as a condition of use and occupation of the premises; and that failure to comply with this would lead to termination of the agreement. DFE guidance on [Keeping children safe during community activities, after-school clubs and tuition: non-statutory guidance for providers running out-of-school settings](#) details the safeguarding arrangements that schools and colleges should expect these providers to have in place. [Keeping Children Safe in Out of School Settings](#) provides information for providers, parents and carers.

Safeguarding Policy – Education and Care

In the event of an allegation being received relating to an incident that happened when an individual or organisation was using their school premises for the purposes of running activities for children. As with any safeguarding allegation, the School should follow the safeguarding procedures set out in this document, including informing the Local Authority Designated Officer or local equivalent where appropriate.

5.0 Designated Safeguarding Lead (DSL)/ Safeguarding Lead

5.1.1 School

With the support of the governing body and proprietor, the Headteacher must appoint one individual to be the lead DSL and make arrangements for there to be a deputy DSL who will manage any immediate safeguarding incidents in the DSL's absence. The DSL must be an appropriate senior member of the leadership team and, along with deputies, will receive DSL training every two years.

The Headteacher must ensure that job descriptions for the DSL and Deputy DSL are kept on personnel files and clearly state their responsibilities.

The DSL (or deputy) must always be available during school hours for staff to discuss any concerns and have a thorough knowledge and understanding of the full [KCSiE 2023](#) guidance.

5.1.2 Children's Home

The Registered Manager is the Safeguarding Lead for the home and is responsible for ensuring that the safeguarding policy is followed. Where necessary they should liaise with the Responsible Individual for advice and guidance.

The Safeguarding Lead (Registered Manager) must ensure that:

- there are clear monitoring arrangements in place which allows them to have effective oversight of all safeguarding matters and of all serious incident notifications.
- all staff have been recruited in line the Group's *Safer Recruitment Policy*
- all staff receive a clear induction, including training on their safeguarding responsibilities and all safeguarding policies and procedures.
- there are clear arrangements for staff to be able to inform a senior manager of any safeguarding concerns they may have at all times.

5.3 The main responsibilities of the DSL in the School and the Safeguarding Lead in the Children's Home are to:

- provide support to staff regarding safeguarding concerns;
- lead on advising staff of any action to be taken due to a safeguarding concern;
- ensure that children and young people are immediately safeguarded from harm and abuse;
- ensure that there is appropriate cover during their absence, and that staff know who to approach if the DSL/Safeguarding Lead is unavailable;
- liaise with local authorities and other professionals, sharing information and fully assisting with any enquiries;
- adopt a child-focused and holistic approach ensuring the children and young people's wishes and feelings are taken into account when determining what action to take
- refer allegations to the Local Authority Designated Officer or local equivalent;
- refer safeguarding concerns to placing and host local authorities;
- refer suspected cases of radicalisation to Channel;
- refer suspected case of Female Genital Mutilation to the police;
- refer suspected cases of Child Sexual Exploitation and trafficking to the police;

Safeguarding Policy – Education and Care

- refer cases to the Disclosure and Barring Service after staff have been dismissed or there is suspected harm having been caused to a child;
- liaise with the Group Head of Safeguarding/ Safeguarding Adviser and HR Team if any allegations or suspected harm having been caused to a child by an employee, supply staff or volunteer for the Group;
- ensure that the setting complies with the work of the local safeguarding partnership.
- ensure that all staff receive regular update training in relation to safeguarding;
- provide safeguarding updates to senior managers and governors;
- keep the Headteacher (or equivalent)/Registered Manager informed of issues, especially ongoing enquiries under Section 47 of the Children Act 1989 and police investigations. This includes being aware of the requirement for children and vulnerable people to have an Appropriate Adult (See [PACE Code C 2019](#) and DFE Guidance [Searching, Screening and Confiscation](#) for further information)
- ensure that there is effective monitoring and oversight of all safeguarding concerns;
- promote the educational achievements of Looked After Children in line with the [Children and Social Work Act 2017](#)
- have details of the social worker for any looked after children and the name of the virtual school head in the relevant authority for any children and young people with a social worker or previously looked after.
- Work closely together with IT Services and providers to meet the needs of the School/Home and requesting system specific training and support as and when required.
 - Take lead responsibility for any safeguarding and child protection matters that are picked up through web filtering and monitoring systems in place, (Please see Web Filtering and Monitoring Policy). This includes overseeing and acting on filtering and monitoring reports, safeguarding concerns and checks to the filtering and monitoring systems.
 - Investigate any attempted access of inappropriate sites as soon as possible and take appropriate action; and refer appropriately any attempted access of websites related to extremism under Prevent duties and local arrangements for reporting.

5.5 It is important that all staff understand the role of the DSL/Safeguarding Lead on their appointment and as part of their induction. The DSL/Safeguarding Lead is responsible for ensuring that all staff understand their roles and responsibilities regarding safeguarding children and young people and that a child-focused approach is taken. The DSL/Safeguarding Lead will assess safeguarding concerns within the context of young people's environments. This is known as contextual safeguarding.

5.6 The DSL/Safeguarding Lead must ensure that clear, concise and good quality documents are kept of all allegations or safeguarding concerns, including low level concerns. All concerns, discussions and decisions made, and the reasons for those decisions, should be recorded in writing. Information should be kept confidential and stored securely. It is good practice to keep concerns and referrals in a separate child protection file for each child or young person. Records should include:

- a clear and comprehensive summary of the concern;
- details of how the concern was followed up and resolved;
- a note of any action taken, decisions reached and the outcome.
- reports about incidents of sexual violence should include the time and location, so action can be taken to make the location safer if required.

If in doubt about recording requirements, staff should discuss with the DSL (or deputy)/Safeguarding Lead.

Safeguarding Policy – Education and Care

5.7 Data protection and GDPR are not barriers to record keeping or information sharing when promoting children/young people's welfare. Schools and care providers have clear powers to share, hold and use information for these purposes. The setting should have clear arrangements in place for the processes and principles for sharing information within the setting, with other divisions within the Group and with children's social care, the safeguarding partners, other organisations, agencies, and practitioners as required. Staff are required to be proactive in sharing information as soon as possible when it is in relation to a child/young person's safety or wellbeing.

5.8 When pupils leave the School or College, the DSL is responsible for ensuring that the necessary information is shared with the new school or college. It is the DSL's responsibility to ensure that a pupil's child protection file is transferred to the new school or college as quickly as possible and as securely as possible. This should be within 5 days for an in-year transfer or within the first 5 days of the start of a new term to allow the new school to have support in place for when the pupil arrives. **Files must be transferred securely;** the child protection file should be transferred separately from the main pupil file. Confirmation of receipt must be obtained. Schools must inform their Local Authority of all deletions from their admission register when a pupil is taken off roll.

If a child transfers from the Children's Home to a different Home or setting, the Registered Manager is responsible for ensuring that the necessary information is shared verbally with new placement. For moves within the Outcomes First Group read only access can be provided to the child/young person information via the Access system.

6.0 Safeguarding Training and Updates for all staff

6.1 Governing bodies, proprietors and senior leaders should ensure that, as part of the requirement for staff to undergo regular updated safeguarding training, including online safety, and the requirement to ensure children are taught about safeguarding, that safeguarding training for staff is integrated, aligned and considered as part of the whole school/setting safeguarding approach and wider staff training and curriculum planning. They must regularly review the training programme to ensure that it includes all the required knowledge and that staff understand how it is to be implemented.

Whilst considering the above training requirements, governing bodies, proprietors and senior leaders should have regard to the:

- [Teachers' Standards](#) which set out the expectation that all teachers manage behaviour effectively to ensure a good and safe educational environment and requires teachers to have a clear understanding of the needs of all pupils.
- [Children's Home Regulations and Standards](#) which set out the expectations for the provision of personalised, respectful, high-quality care that meets the child or young person's individual needs.

6.2 All staff are expected to follow this policy and statutory guidance.

Staff working in education settings **must** read and follow this policy in conjunction with [KCSiE 2023](#)

6.3 All staff must read the following documents:

Part 1 (or Annex A where appropriate) of [KCSiE 2023](#)

The setting's:

- Restrictive Physical Intervention Policy
- Behaviour Policy
- Anti-bullying Policy

Safeguarding Policy – Education and Care

- Child-on-child abuse Policy and Harmful Sexual Behaviour Guidance
- Child Exploitation Policy
- Protecting Children from Radicalisation policy
- Web Filtering and Monitoring policy
- Mobile and Smart Technology Policy
- Medication Policy
- Description and guidance of the role of the DSL and Deputy/Safeguarding Lead
- Low level concerns Guidance & Procedure

Outcomes First Group's:

- Group Safeguarding Statement
- The Use of Restrictive Practices and Restraint Terms of Reference
- Suspension and Permanent Exclusion Policy
- Safer Recruitment policy
- Data Protection policy
- Staying Safe Online
- Gaming Devices Best Practice Guidance
- Whistle blowing and complaints policy
- Code of Conduct & Ethics Policy
- Photography of Injuries and Medical Conditions Policy
- Serious Incident Escalation Policy

Staff should also be aware of the following DFE Guidance:

- [Working Together to Safeguard Children 2018 \(updated July 2022\)](#)
- [Sexual violence and harassment between children in schools and colleges](#)
- [Children Missing in Education](#) and [Working together to improve school attendance](#)
- [Promoting the Education of Looked After Children](#)
- [Teaching Online Safety in Schools](#)
- [Sharing nudes and semi-nudes: advice for education settings](#)
- [Searching, Screening and Confiscation](#)
- [Harmful Online Challenges and Online Hoaxes](#)
- [Preventing and tackling bullying](#)
- [Mental health and wellbeing support in schools and colleges](#)
- [Behaviour in schools: advice for headteachers and school staff](#)
- [SEND code of practice: 0-to-25 years](#)
- [Information Sharing: Advice for practitioners providing Safeguarding Services](#)

[Supporting practice in tackling child sexual abuse](#) - CSA Centre of Expertise on Child Sexual Abuse has free evidence-based practice resources to help professionals working with children and young people to identify and respond appropriately to concerns of child sexual abuse.

6.4 Safeguarding updates must be regularly provided to staff, either through face-to-face training, meetings or through regular written updates by the setting.

All staff must complete the mandatory training:

- Introduction to Safeguarding (e-learning) to be completed within the first week of employment.
- Safeguarding Children Foundation training within three months of employment.
- The annual KCSiE e-learning course that provides updated statutory information and requirements that all education staff must be aware of.

Safeguarding Policy – Education and Care

A line manager competency check must be completed annually (via competency check on Shine) in the years in between the formal safeguarding course. If there are any concerns regarding competency or knowledge the team member will be referred to complete a refresher or original safeguarding course.

DSLs (and their deputies) and Safeguarding Leads must refresh their advanced training at least every two years.

If a service has a specific need or issue in relation to Safeguarding, then they can request a closed virtual or closed face-to-face course to support with the need. Contact details for setting's [Regional Training Manager](#) can be found on Engage.

6.5 All members of the leadership teams, including the Headteacher/ Registered Manager and DSL/Safeguarding Lead should also be familiar with [Working Together to Safeguard Children 2018 \(updated July 2022\)](#)

7.0 Roles and Responsibilities of Staff

7.1 The Group recognises that it is not just one person's role to safeguard children and young people, it requires a collective approach. All employees must understand their roles and responsibilities regarding keeping children and young people safe and reporting concerns.

7.2 During induction, staff will receive safeguarding training, including online safety which, amongst other things, includes an understanding of the expectations, applicable roles and responsibilities in relation to filtering and monitoring. Staff must be familiar and understand the role of the DSL/Safeguarding Lead, the local safeguarding partnership and the individual systems relating to safeguarding within the setting. Staff must also know, understand and implement the behaviour management policy, the Group's Code of Conduct & Ethics, the safeguarding response to pupils who are absent from school and children who go missing from education or the home, and for staff working in or with the school [KCSiE 2023, Part 1](#)

7.3 Staff are responsible for:

- compliance with Outcomes First Group policies, statutory guidance and legislation including [KCSiE 2023](#) and [Working Together to Safeguard Children 2018 \(updated 2022\)](#)
- understanding the role of the DSL/Safeguarding Lead;
- helping to develop and deliver a curriculum which helps children and young people to understand about abuse, appropriate and safe relationships with adults and other children, and keeping safe both online and offline;
- helping to provide an environment where children and young people feel safe and valued;
- attending training and meetings;
- ensuring that they fully understand how to report concerns and if not, asking for further training and support;
- understand the safeguarding response to children and young people who are absent from school and those who go missing from education or the home;
- listening to children and young people;
- supporting children and young people if they disclose safeguarding information;
- ensuring that they are alert to signs of abuse by other children or adults and are aware of indicators or possible signs of neglect;
- ensuring that they closely monitor any possible signs of abuse or harm for those children and young people who are unable to communicate verbally or who have complex health and care needs;
- keeping sensitive information confidential and sharing it only with those professionals for whom it is relevant;
- helping to identify those children and young people who may benefit from Early Help;
- helping to implement Child Protection Plans.

Safeguarding Policy – Education and Care

- 7.4** Staff are in a close position to children and young people and have regular contact with them, so are in the best position to know if a child or young person is behaving in a way which could possibly indicate that they are being hurt or harmed. Any concerns, no matter how small they may seem, must be reported immediately to the **DSL/Safeguarding Lead** both verbally and in writing. **It is the staff member's responsibility to ensure that this information is acted upon. They have a duty to follow up with the DSL to ensure that action has been taken.**
- 7.5** All staff should be aware that a child or young person may not feel ready or know how to tell someone that they are being abused, exploited, or neglected, and they may not recognise their experiences as harmful. For example, they may feel embarrassed, humiliated, or being threatened. This could be due to their vulnerability, disability and/or sexual orientation or language barriers. Staff must maintain professional curiosity and be alert to changes in a child/young person's behaviour. Staff must speak to the DSL/Safeguarding Lead if they have any concerns about a child or young person. It is also important that staff determine how best to build trusted relationships with each child and young person to facilitate communication.
- 7.6** Some common signs staff should be alert to that may indicate something concerning may be happening in a child/young person's life include:
- unexplained changes in behaviour or personality
 - becoming withdrawn
 - seeming anxious
 - becoming uncharacteristically aggressive
 - lacks social skills and has few friends if any
 - poor bond or relationship with a parent
 - knowledge of adult issues inappropriate for their age
 - always choosing to wear clothes which cover their body
 - running away or going missing
- (Please see: [NSPCC: Spotting the Signs of Child Abuse](#))

These signs do not necessarily mean that a child or young person is being abused, there could be other things happening in their life which are affecting their behaviour. Staff should discuss any concerns with the DSL/Safeguarding Lead.

For children and young people with special educational needs or disabilities (SEND), and multiple complex co-occurring needs, it can be difficult for staff to distinguish between signs of abuse and behaviour that is part of the child or young person's condition. Staff should be alert to **changes** in their behaviour and always consider all possible causes of this.

Please also see: [Children with disabilities - Safeguarding our most vulnerable](#)

- 7.7** Being Lesbian, gay, bisexual or transgender, queer and/or ace (LGBTQ+) is not in itself an inherent risk factor for harm. However, children and young people who are LGBTQ+, or are perceived to be LGBTQ+, can be targeted by others. Risks can be compounded where children and young people who are LGBTQ+ lack a trusted adult with whom they can be open. It is therefore vital that staff endeavour to reduce the additional barriers faced and provide a safe space for them to speak out or share their concerns with members of staff.

Please note: The DfE refer to 'LGBT' in its guidance. Outcomes First Group has chosen to use the term 'LGBTQ+', because this abbreviation appears to be most inclusive and commonly used by the community.

Safeguarding Policy – Education and Care

- 7.8** Looked after children and previously looked after children can potentially remain vulnerable and all staff should have the skills, knowledge and understanding to keep looked after children and previously looked after children safe. It is important that all agencies work together, and prompt action is taken when necessary to safeguard these children, who are a particularly vulnerable group.
- 7.9** If the School or Home becomes aware that a child is subject to a private fostering arrangement, the local authority must be informed so they can assess and support them to ensure it is a safe place for the child. Private foster carers are people who are not a close relative to a child but plan to look after them for 28 days or more. Staff should inform the DSL/Safeguarding Lead immediately if they become aware of a private fostering arrangement.
- 7.9** Staff should be aware that children can be victims of domestic abuse. They may see, hear, or experience the effects of abuse at home and/or suffer domestic abuse in their own intimate relationships as teenagers. All of which can have a detrimental and long-term impact on their health, well-being, development, and ability to learn. Domestic abuse can encompass a wide range of behaviours and may be a single incident or a pattern of incidents. That abuse can be, but is not limited to, psychological, physical, sexual, financial or emotional.

The Headteacher (or equivalent) and DSL should be familiar with [Operation Encompass](#) which enables schools and police to work together to provide emotional and practical help to pupils, where police have been called to an incident of domestic abuse in the household.

- 7.10** The setting must ensure that children and young people know:
- how to report any concerns and feel confident that they will be listened to and supported.
 - They can also report any concerns by emailing tellus@ofgl.co.uk, which is monitored by the Outcomes First Group's Quality Team.
 - Are aware they can contact the NSPCC dedicated helpline on [0800 136 663](tel:0800136663) or by emailing help@NSPCC.org.uk
 - Are aware of how to contact Childline ([0800 1111](tel:08001111))
- 7.11** Staff are not permitted to use personal mobile phone devices, cameras or digital recording devices at any time during operational hours within the setting. Staff should be supported to safely store away their personal devices during these times in a lockable personal storage area, with personal keys provided to each staff member. Staff are advised if they wish to take their personal devices out of storage, they are only permitted to do so during their designated break times, with the restriction of only doing so in the designated staff room area. Company devices will be provided as and where appropriate to support staff to capture images of any Learning & Development within the setting. Visitors will also be made aware of the requirement for them to adhere to this procedure when arriving to site and undergoing the visitor sign in process.

8.0 Safer Recruitment

- 8.1** The Outcomes First Group's *Safer Recruitment Policy* sets the processes which must be followed for the recruitment of staff and volunteers, which includes the requirement for enhanced DBS and other checks. Schools and colleges must inform shortlisted candidates that online searches may be done as part of pre-recruitment checks.
- 8.2** It is the responsibility of the Headteacher to ensure that the School's Single Central Record is compliant with legislation and statutory guidance and kept up to date and stored confidentially. Children's Homes must comply with Regulations 32 and 33 and Schedule 2 of [The Children's Homes \(England\) Regulations 2015](#)

Safeguarding Policy – Education and Care

8.3 It is the responsibility of the hiring manager at the setting to ensure that copies of the documents used to verify the successful candidate's identity, right to work, required qualifications and references should be kept on their personnel file. The Headteacher and Safeguarding Governor in the School and the Registered Manager and Responsible Individual in the Home should conduct regular audits to assure themselves that the correct documents are in place and stored safely.

Schools do not have to keep copies of DBS certificates, in order to fulfil the duty of maintaining the single central record. If the School retains them there must be a valid reason for doing so and it should not be kept for longer than six months as they are covered by UK GDPR/DPA 2018 Article 10.

9.0 Early Help

9.1 *'A child in need is defined under the Children Act 1989 as a child who is unlikely to achieve or maintain a reasonable level of health or development, or whose health and development is likely to be significantly or further impaired, without the provision of services; or a child who is disabled. Local authorities are required to provide services for children in need for the purposes of safeguarding and promoting their welfare. Children in need may be assessed under section 17 of the Children Act 1989' (KCSIE 2023)*

9.2 It is important that staff take swift and effective action to safeguard children and young people and to stop concerns from escalating. Some children and young people may benefit from Early Help. All staff should be aware of their local early help process and understand their role in it.

9.3 Staff must be aware and alert to the possibility of Early Help being needed for those children and young people who have particular vulnerabilities, such as those who:

- are disabled or have certain health conditions and specific additional needs;
- have special educational needs (whether or not they have a statutory EHCP);
- have a mental health need;
- are young carers;
- are frequently missing/goes missing from care or from home;
- are persistently absent from school, including persistent absences for part of the day.
- are showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines;
- are at risk of modern slavery, trafficking, sexual or criminal exploitation, of being radicalised or exploited;
- are in a challenging family circumstance, such as drug and alcohol misuse, adult mental health issues and domestic abuse; have a family member in prison or offending;
- are misusing drugs or alcohol themselves;
- have returned home to their family from care;
- are at risk of 'honour'-based abuse such as Female Genital Mutilation or Forced Marriage;
- are privately fostered;

9.5 Children's social care assessments should consider where children are being harmed in contexts outside the home, so it is important that schools provide as much information as possible as part of the referral process. This will allow any assessment to consider all the available evidence and enable a contextual approach to address such harm

9.6 When a child or young person has been referred for Early Help, it is the responsibility of the DSL/Safeguarding Lead to set up an inter-agency assessment as appropriate. Staff may be required to support other agencies and professionals in an early help assessment, in some cases acting as the lead professional. Any such cases should be kept under constant review and consideration must be given to a referral to children's social care for assessment for statutory services if their situation does not appear to be improving or is getting worse.

10.0 Reporting concerns

10.1 What to do if a child or young person discloses

Well promoted, easily understood and easily accessible systems should be in place for children and young people to confidently report abuse, sexual violence and sexual harassment, knowing their concerns will be treated seriously, and that they can safely express their views and give feedback.

If a child or young person discloses information to a member of staff, they must ensure that:

- they listen to the child/young person and reassure them they are being taken seriously and that they will be supported and kept safe.
- never give the impression they are creating a problem by reporting abuse, sexual violence or sexual harassment. They must never be made to feel ashamed for making a report.
- do not dismiss what they are told. All concerns must be acted upon rigorously;
- do not promise to keep it a secret. The member of staff must explain that they have a duty to share information to keep them safe and protect them;
- write down what the child and young person tells them. This must be accurate and, in the child,/young person's words;
- immediately report the concerns to the DSL or deputy/Safeguarding Lead. If neither is available, the member of staff must report the information to the Headteacher (or equivalent)/ Registered Manager or Regional Director.

10.2 Staff must be alert to not just potential familial abuse and allegations, but also to children and young people making allegations against staff, volunteers or other children and young people. In these situations the Group's Managing Allegation Procedures must be followed. (See Section 24 for further details).

10.3 All concerns, however small they may seem, **must** immediately be reported to the DSL/Safeguarding Lead. This must be done verbally and then followed up **on the same day** and documented on the School's electronic recording system. The member of staff has a responsibility to ensure that action has been taken about the concern on the **following day**, and that the concern is documented on the system. If action is not taken in a timely way as the member of staff sees fit, they have a duty to escalate their concerns to the Headteacher (or equivalent)/ Registered Manager or Regional Director.

10.3.1 Integrated education and care settings,

When a concern is reported **at the school:**

- it must be recorded on the School's electronic recording system
- The DSL will liaise with the Home Safeguarding Lead and share the relevant information.
- The Home Safeguarding Lead will make a note on the child's file at the Home.

When a concern is reported **at the Children's Home:**

- it must be recorded on the Home's electronic recording system.
- The Safeguarding Lead will liaise with the School DSL.
- The DSL will make a note on the child's file at the school.

10.4 Staff must prioritise the child/young person's immediate safety. They must remain professional and adhere to all safeguarding and confidentiality procedures. After sharing the information with the DSL or deputy/Safeguarding Lead, they must not share it with anyone else.

10.5 On receipt of the information, the DSL/Safeguarding Lead must consider all information and then, in cases of serious concern, report this within **one working day** to the host authority, placing authority, Regional Director, and where relevant, the Local Authority Designated Officer or local equivalent.

Safeguarding Policy – Education and Care

11.0 Managing Referrals to Disclosure and Barring Service (DBS) and professional bodies

- 11.1** As a result of an allegation or investigation a referral may be required. This can include referrals to Disclosure and Barring Service, Disclosure Scotland, Social Work England, the Scottish Social Services Council (SSSC) and other professional bodies, including the Care Council for Wales (CCW), and/or Northern Ireland Social Care Council (NISCC) or Teacher Regulation Authority/ General Teaching Council for Scotland (GTCS).
- 11.2** The Headteacher/Registered Manager of the setting is responsible for making the referral at the appropriate time. The timing of the referral can vary by nation and by the severity of the concern. The Headteacher /Registered Manager must be familiar with, and follow, the national requirements and make the referral at the appropriate time.
- 11.3** If an employee is dismissed from employment due to a safeguarding concern or allegation, a referral to the appropriate body must be made. **It is an offence in all UK nations not to make a referral to the appropriate disclosure body.**
- 11.5** If a referral is made, at the point of completion the Headteacher (or equivalent)/ Registered Manager must notify safeagurding@ofgl.co.uk and the Human Resources Advisor hroperationsadvice@ofgl.co.uk of the referral and any other possible referrals to any relevant professional body in the United Kingdom, relating to the allegation made.
- 11.6** If an employee is dismissed from employment due to a safeguarding concern or allegation, a referral to DBS/ Disclosure Scotland must be made.
- 11.7** Where a teacher is dismissed or their services are no longer used because of serious misconduct, or might have been dismissed, or services ceased to be used had they not left first, they must consider whether to refer the case to the Secretary of State (via the Teaching Regulation Agency).

12.0 Partnership working and sharing information

- 12.1** Partnership working and the sharing of information is key in keeping children safe. Everyone who has a role to play in caring for children has a duty to share good quality information with the relevant professionals in a timely manner.

12.2 General Data Protection Regulations

All settings must ensure that they comply with the Outcomes First Group's Data Protection policy which incorporates the GDPR requirements. The GDPR works around the principles of consent and assumes the automatic right of privacy to all individuals. This applies to children and young people's personal information, as well as that of staff and parents/carers.

GDPR is not a barrier to sharing safeguarding information. Safeguarding concerns must always be passed on. It is not necessary to seek consent to share information for the purposes of safeguarding and promoting the welfare of a child/young person provided that there is a lawful basis to process any personal information required.

Information can be shared without consent where there is good reason to do so, and that the sharing of information will enhance the safeguarding of a child/young person in a timely manner. It is legitimate to share information without consent where:

- it is not possible to gain consent;
- the setting cannot reasonably be expected to gain consent; and
- if to gain consent would place a child, young person or adult at risk.

Where there is any doubt, the DSL/Safeguarding Lead should contact the Group's Legal Team for clarification.

Safeguarding Policy – Education and Care

All staff must complete the GDPR training. All staff have a responsibility to ensure that they comply with the GDPR requirements.

- 12.3** Schools and Homes must ensure that they inform children and young people, parents and carers of how their personal information will be stored and used.
- 12.4** Schools must ensure that they hold emergency contact details of the parents/carers/those with parental responsibility. This is to be done with the agreement of the parents/carers/those with parental responsibility. In line with [KCSiE 2023](#) schools must hold more than one set of contact details for each pupil, where reasonably possible.

Children’s Homes must also hold the hold emergency contact details of the those with those with parental responsibility. They should hold more than one set of contact details for each child/young person, where reasonably possible.

- 12.5** Data breaches must be reported immediately to Group’s Data Protection Officer as set out in the Group’s Data Protection Policy.

Please also see:

[Information Sharing Advice for Safeguarding Practitioners](#) (Pease that this advice is currently under revision, an updated draft is being consulted on: [DRAFT Information Sharing Advice](#))
[Improving multi-agency information sharing \(publishing.service.gov.uk\)](https://publishing.service.gov.uk)

13.0 Child-on-child abuse

- 13.1** All staff should be aware that children can abuse other children (often referred to as child-on-child abuse), children of differing ages, as well as similar ages, can abuse one another.

Local Safeguarding procedures must be followed, and any incidents of sexual violence will be reported to the police. Settings should be part of discussion with statutory safeguarding partners.

- 13.2** It is essential that all staff understand that abuse is abuse and the importance of challenging inappropriate behaviours between children and young people. In addition to the information below, staff should familiarise themselves with the setting’s *Child-on-Child Abuse Policy*.

[KCSiE 2023](#) states: **“Downplaying certain behaviours, for example dismissing sexual harassment as “just banter”, “just having a laugh”, “part of growing up” or “boys being boys” can lead to a culture of unacceptable behaviours, an unsafe environment for children and in worst case scenarios a culture that normalises abuse leading to children accepting it as normal and not coming forward to report it.”**

- 13.3** Staff must ensure that they create an environment where children and young people’s safety is paramount and where unacceptable or unsafe behaviour is not tolerated. Staff must be aware and alert to incidents of online abuse between children, consensual and non-consensual sharing of nude and semi-nude images, sexual violence and sexual harassment between children/young people and bullying. This includes upskirting, which typically involves taking a picture under a person’s clothing without them knowing, with the intention of viewing their genitals or buttocks for sexual gratification, or to cause the victim humiliation, distress or alarm. Staff must be alert to possible signs of child-on-child abuse. Inappropriate language must be rigorously and consistently challenged.

Safeguarding Policy – Education and Care

- 13.4** All staff should understand, that even if there are no reports in their settings does not mean it is not happening, it may be the case that it is just not being reported. Staff are advised to maintain an attitude of **'it could happen here'** and be vigilant to any signs.
- 13.5** It is important that staff are aware that children and young people may not find it easy to tell an adult about their abuse verbally. Children and young people can show signs or act in ways that they hope adults will notice and react to. In some cases, the victim may not make a direct report. For example, a friend may make a report, or a member of staff may overhear a conversation that suggests a child or young person has been harmed or a child or young person's own behaviour might indicate that something is wrong. If staff have any concerns about a child or young person's welfare, they should act on them immediately rather than wait to be told.
- 13.6** It is essential that all victims are reassured that they are being taken seriously, regardless of how long it has taken them to come forward, and that they will be supported and kept safe. Abuse that occurs online or outside of the setting should not be downplayed and should be treated equally seriously. **Staff must act immediately and report any concerns regarding child-on-child abuse to the DSL/Safeguarding Lead.**
- 13.7** Staff should explain to the child/young person in an appropriate way that the law is in place to protect them rather than to criminalise them. This should be explained in a way that avoids alarming or distressing them.
- 13.9** Child-on-child abuse is most likely to include, but may not be limited to:
- bullying (including cyberbullying, prejudice-based and discriminatory bullying);
 - abuse in intimate personal relationships between peers;
 - physical abuse such as hitting, kicking, shaking, biting, hair pulling, or otherwise causing physical harm
 - sexual violence, such as rape, assault by penetration and sexual assault
 - sexual harassment, e.g. sexual comments, remarks, jokes and online sexual harassment, which may be standalone or part of a broader pattern of abuse; upskirting
 - causing someone to engage in sexual activity without consent,
 - consensual and non-consensual sharing of nude and semi-nude images and or videos
 - initiation/hazing type violence and rituals (this could include activities involving harassment, abuse or humiliation used as a way of initiating a person into a group)
- These forms of abuse can happen inside or outside of school or the Children's Home both offline and online.
- 13.10** A contextual safeguarding approach must be taken when considering possible child-on-child abuse. Children and young people who display harmful behaviours must be seen as potential victims themselves, and the wider environmental risks must be taken into account. Staff must challenge any gender bias or derogatory language used by staff or children and young people. Staff must not dismiss any concerns brought to them. Staff can report concerns verbally, but they must ensure that all concerns are recorded onto the setting's electronic recording system by the end of the School day or end of shift.
- Integrated Education and Care sites** – please see **10.3.1** for recording and sharing information about safeguarding disclosures and concerns between the School and Home.
- 13.11** It is also important to understand intra familial harms and any necessary support for siblings following incidents, this applies whether siblings attend the same or a different school, are in the same children's home or live in the family home.

Safeguarding Policy – Education and Care

- 13.12** When making decisions about how to deal with allegations, the age and understanding of the young person who has displayed harmful behaviour must be taken into consideration, as well as any relevant personal circumstances and how this relates to their behaviour. Schools and Homes must consider any disparity in age between the young person who has displayed harmful behaviour and the victim, the impact the behaviour has had on the victim, and any element of coercion or violence.
- 13.13** DSL/Safeguarding Lead must deal with any concerns of child-on-child abuse immediately and sensitively. As much information as possible must be gathered from the victim, and the young person who has allegedly displayed harmful behaviour to gain the facts of what has happened.
- 13.14** The language used must be sensitive, non-judgemental and must not blame the victim. Victims must be supported and reassured that their safety and welfare within the School and Home is the priority. Risk assessments must be implemented where necessary.
- 13.15** Where the DSL/Safeguarding Lead believes that there has been significant harm caused to the child/young person, a referral must be made to the local authority immediately. In agreement with the local authority, parents/carers must be informed. Where possible, as best practice, parents/carers are to be informed face to face.

If the local authority does not believe it meets their threshold for further action and the DSL/Safeguarding Lead is not in agreement, this must be challenged with the local authority.

13.16 After the outcome/conclusion of the incident:

- a contextual safeguarding approach must be taken;
- settings must take all necessary action to learn from the incident and prevent future incidents from occurring, such as through targeted education around specific types of child-on-child abuse;
- support for the victim must be offered and provided where possible. Appropriate risk assessments must be implemented to provide reassurance and safety for the victim;
- staff must ensure that they **do not** adopt a victim blaming approach;
- the DSL/Safeguarding Lead must complete an investigation into the incident; The investigation must consider the incident itself as well as whether it is an isolated incident, and the personal circumstances of the young person who is alleged to have displayed harmful behaviour;
- if necessary, appropriate referrals must be made to support services for the young person who has displayed harmful behaviours;
- a risk assessment must be completed and implemented for the young person who has displayed harmful behaviours in order to safeguard them and other children and young people.

14.0 Bullying

- 14.1** Severe or persistent forms of bullying can result in Significant Harm, which is why those providing services for children should have adequate policies, procedures and training to counter bullying. Bullying occurs when a person or group of people behave in ways which are designed to cause distress or to hurt a person or group of people. Bullying can be overt and plain for all to see. It can be subtle and insidious. Bullying can become part of the culture, recognised or believed by all or a significant number of people as 'acceptable.'
- 14.2** Outcomes First Group has a zero-tolerance approach to bullying. All staff have a responsibility to challenge all bullying. Staff must help children and young people to understand what bullying is and how to report it. Bullying must be dealt with as a safeguarding matter. Staff must report any bullying concerns to the DSL/Safeguarding Lead **on the same day**. The concerns must be documented appropriately.

Safeguarding Policy – Education and Care

- 14.3** Settings have a responsibility to ensure that those children and young people who bully, are supported and helped to understand the impact of their actions.
- 14.4** The government has produced the following guidance on preventing and tackling bullying, mental health and behaviour:
[Preventing and tackling bullying](#)
[Mental health and behaviour in schools](#)
[Behaviour in schools: advice for headteachers and school staff](#)
See [Rise Above](#) for links to materials and lesson plans
- Information on the Group's [Wellbeing and Clinical Services](#) can found on Engage.
- 14.5** Please see the setting's *Anti-Bullying Policy* and *Web Filtering and Monitoring Policy*.
- 14.6 All staff have a responsibility to report any suspicions or concerns that a child or young person has or may be mistreated or harmed.**
- 15.0 Preventative Strategies**
- 15.1** It is important that children and young people are taught about how to keep themselves and others safe, including online. This preventative education will be effectively tailored to the specific needs and vulnerabilities of individual children and young people
- For children and young people who are non-verbal or have limited receptive and expressive communication and learning disabilities, more direct on-going observation is often required to support them and keep them safe, along with the direct modelling of safe behaviour by those responsible for their care and education. The support required must be tailored to the individual's needs and be included in their Care Plan.
- 15.2** The setting will take all appropriate action to ensure that children and young people learn about appropriate relationships with adults, keeping safe, online safety as well as sex and healthy relationships. Relationship Health and Sex Education (RSHE) lessons will focus on important age-appropriate issues in line with Government guidance. Staff must ensure that children and young people have opportunity to learn about safe relationships between peers as well as who they can talk to if they have any concerns.
- LGBTQ+ inclusion is part of the statutory Relationships Education, Relationship and Sex Education and Health Education curriculum and there is a range of support available to help counter homophobic, biphobic and transphobic bullying and abuse. A one-stop page providing teachers with support in teaching RSHE topics can be found here: <https://www.gov.uk/guidance/teaching-about-relationships-sex-and-health>
- 15.3** Children and young people will be supported by staff to understand what abuse is. Children and young people must be listened to and enabled to report any abuse or neglect at the earliest opportunity. They should be given information about how to report abuse or any concerns about possible abuse. This should include being able to access in private, relevant websites or help lines such as Childline to seek advice and help.
- 15.4** The setting recognises that some children and young people are more vulnerable by virtue of their complex health or behavioural needs, or disabilities. In these instances, all staff have a responsibility to be the 'eyes and ears' and report all concerns to the DSL/Safeguarding Lead.
- 15.5** For further information, refer to Part 5 of KCSiE (2023) 'Child on Child Sexual Violence and Sexual Harassment'.

16.0 Online Safety and Security

Please also see the *Web Filtering & Monitoring Policy*, *Staying Safe Online Policy* and *Mobile and Smart Technology Policy (Schools)/ Phone and Internet Access Policy (Homes)*.

16.1 There is a whole setting approach to online safety to help equip children and young people with knowledge and understanding to stay safe online. The setting helps and supports its children and young people to recognise and avoid online safety risks and to help build their digital resilience. This is integrated into everyday learning and covered in detail as part of the RSHE curriculum. There are a range of resources to provide support for online safety teaching at: childnet.com

As highlighted in **15.1**, those who are non-verbal or have limited receptive and expressive communication and learning disabilities, will require specifically tailored support which is likely to involve more direct on-going observation to keep them safe. Staff will directly model safe behaviour. The support required must be tailored to the individual's needs and be included in their Care Plan.

16.2 The setting will work with parents and carers to help keep children and young people safe online. Parents/Carers/ those with responsibility will be informed about what their children are being asked to do online, including the sites they will be asked to access and if their child is going to be interacting with others online. Information about the systems used to filter and monitor online use can be found in the setting's Web Filtering Policy.

16.3 The Group requires safe and secure systems to be put in place that limits the exposure to such risk. The Group operates a highly secure web filtering system on the internet link to the setting to safeguard the setting's computers and internet use, and it also offers safeguards on every mobile phone and tablet used in the setting over the setting's Wi-Fi network.

Web filtering and monitoring helps to keep children and young people safe from illegal and inappropriate content and that they are protected from extremism online when using the setting's Wi-Fi. The setting works with the Group's IT Section to ensure that the filtering and monitoring systems are appropriate for the setting, and are informed in part, by the risk assessment required by the Prevent Duty. The filtering and monitoring systems are reviewed at least annually.

South West Grid for Learning <https://swgfl.org.uk/> have created a [testing tool](#) that can be used to check the filtering system is blocking access to illegal child sexual abuse material, unlawful terrorist content and adult content

16.4 **If a member of staff has reason to believe that a child or young person is experiencing harm or is at risk of harm, the reporting process set out in this policy in Section 10 must be followed immediately.**

16.5 If staff become aware of an online incident that is a cause for concern, they should:

- Provide reassurance to the child/young person.
- Take immediate action to report any criminal offences to the police and social care.
- Inform the placing authority and family as appropriate.
- Review the supervision and support arrangements for the child/young person accessing the internet and check the privacy and security settings on their devices and account.
- Agree what action will be taken to prevent recurrence and reduce risk, the risk assessment should be reviewed and updated. Further online safety learning requirements should be considered for the child/young person.

Safeguarding Policy – Education and Care

- 16.6** Digital technology and its related risks are developing rapidly. An annual review of the setting's approach to online safety will take place, supported by an annual risk assessment that considers and reflects the risks children and young people face. A free online safety self-review tool for schools can be found at <https://360safe.org.uk/> or [LGfL online safety audit](#)
- 16.7** UKCIS provide a range of resources to support settings to further develop a robust approach towards online safety: [Using external expertise to support online safety education](#) [Saferinternet.org.uk - Residential Care Settings](#) and [Supporting Vulnerable Groups](#).
- Further helpful resources for online safety:
UK Safer Internet Centre: [Appropriate Filtering and Monitoring](#)
UKCIS guidance: [Sharing nudes and semi-nudes: advice for education settings](#)
DFE Advice [Harmful Online Challenges and Online Hoaxes](#)
National Crime Agency's CEOP education programme: [ThinkuKnow](#)
LGFL [Undressed](#) advice on teaching children about being tricked into getting undressed online.

17.0 Children who are absent from education

- 17.1** All staff must be aware of the risks associated with children who are absent from education, for prolonged periods and/ or on repeat occasions that can often be a vital warning sign of a range of safeguarding concerns including neglect, child sexual and child criminal exploitation, forced marriage, FGM, substance misuse or mental health problems.

The risk of exploitation and abuse increases for children and young people who go missing from home and school. It is important the School's response to persistently absent pupils and children missing education supports identifying such abuse, and in the case of absent pupils, helps prevent the risk of them becoming a child missing education in the future. This includes when problems are first emerging but also where children are already known to local authority children's social care and need a social worker (such as a child in need, or already has a child protection plan, or is a looked after child), where being absent from education may increase known safeguarding risks within the family or in the community.

Early identification and intervention is a priority. Schools must have appropriate procedures in place for monitoring the attendance of pupils in school. Attendance must be monitored through Senior Leadership Team Meetings and Governance.

- 17.2** The DSL must contact the main emergency contact as detailed on the pupil's file should there be concerns regarding the child or young person absent from education.

Staff must report all unauthorised absences to the DSL, who must make contact with the child/young person's parent/carer/those with parental responsibility immediately to establish the child/young person's whereabouts. The DSL must inform the placing authority of pupils who are frequently absent.

- 17.3** The DSL is responsible for investigating any unexplained absences. Reasonable enquiries must be made to locate a child or young person who is absent from education. The DSL **must** refer any safeguarding concerns regarding the absence of the pupil to the local authority. Cases where there are concerns regarding forced marriage or FGM must be referred to the police immediately. All information **must** be documented appropriately.

- 17.4** Children and young people who are repeatedly absent from school are at particular risk of harm. Attempts must be made to talk to them about why they are absent. Records must be kept of those discussions. Any safeguarding information which the child/young person discloses must be shared **immediately** with the local authority. If they disclose immediate safeguarding concerns, the DSL must share this information with the police.

Safeguarding Policy – Education and Care

Staff in the School and the Children's Home will work together to support high levels of attendance, with support from the Clinical Team, as required.

Please also see: [Children Missing in Education](#) and [Working together to improve school attendance](#) guidance, which includes information on how schools should work with local authority children's services where school absence indicates safeguarding concerns.

18.0 Children who go Missing from the Children's Home

18.1 All staff must be aware of the risks associated with children who go missing from home, and particularly that very often missing incidents are a warning sign of other safeguarding concerns such as exploitation, forced marriage, FGM, substance misuse or mental health problems. Early identification and intervention is a priority.

18.2 Homes must ensure that all young people at risk of going missing have a clear risk assessment and a clear plan for what needs to be done if the young person goes missing. All staff must sign to show they have read the plan and understand what they need to do. The plans should be agreed with the young person's social worker and, where possible, the young person's parents and the young person themselves.

18.3 The Safeguarding Lead is responsible for investigating any unexplained absences and for ensuring a 'return from missing' interview is requested from the local authority. Reasonable enquiries must be made to locate a child or young person who is missing, and staff are expected to act as a reasonable parent would in terms of actively trying to find and retrieve the young person. The Safeguarding Lead **must** refer any safeguarding concerns regarding the absence of a young person to the local authority. In cases where there are immediate concerns regarding forced marriage or FGM, the Safeguarding Lead must refer to the police immediately. All information **must** be documented on the home's recording system records.

18.4 Children and young people who are repeatedly missing are at particular risk of harm. Attempts must be made to talk to the child or young person about why they are missing from the home and/or education. Records must be kept of those discussions. Any safeguarding information which the child or young person discloses must be shared **immediately** with the local authority. If the child or young person discloses immediate safeguarding concerns, the Safeguarding Lead must share this information with the police.

18.5 The home should have full regard to the local missing protocols and procedures in place in their host local authority and police force area. Staff should always arrange a return home interview at the earliest opportunity which should be conducted by someone independent of the home and ideally Outcomes First Group.

19.0 Child Sexual Exploitation (CSE) and Child Criminal Exploitation (CCE)

19.1 Exploitation of children and young people is a form of child abuse and can include sexual exploitation or criminal exploitation. This occurs when an individual or group takes advantage of an imbalance in power to coerce, manipulate or deceive a child into taking part in sexual or criminal activity, in exchange for something the victim needs or wants, and /or for financial advantage or increased status of the perpetrator or facilitator and/or through violence or the threat of violence.

19.2 CSE and CCE can affect children, both male and female and can include children who have been moved (commonly referred to as trafficking) for the purpose of exploitation.

It is important to note that the experience of girls who are criminally exploited can be very different to that of boys. The indicators may not be the same, however professionals should be aware that both boys and girls can be at risk of criminal exploitation. Both boys and girls being criminally exploited may be at higher risk of sexual exploitation.

Safeguarding Policy – Education and Care

- 19.3** Settings must write and implement a local exploitation procedure which staff must be familiar with. All staff **must** read the setting's Child Exploitation policy and refer to [KCSiE 2023](#) .
- 19.4** All staff **must** know the definitions, signs and indicators of CSE, CCE and County Lines. DSL must provide ongoing training and learning to staff around exploitation. All staff **must** have training in exploitation.
- 19.5** Staff **must** report any concerns regarding exploitation **immediately** to the DSL/Safeguarding Lead and document their concerns appropriately **on the same day**. Where there are immediate concerns relating to a child's or young person's safety due to exploitation, DSLs/Safeguarding Leads must make a same day referral to the local authority and report the concerns to the police as well as to the Regional Director.
- 19.6** It is the responsibility of all staff to help children and young people know about grooming and exploitation. They must ensure that children and young people know who to talk to if they have any concerns for themselves or other children.

Please also see [Multi-agency practice principles - child exploitation and extra-familial harm](#)

20.0 Serious violence

- 20.1** All staff should be aware of indicators, which may signal children and young people are at risk from or are involved with serious violent crime. These may include increased absence from school, a change in friendships or relationships with older individuals or groups, a significant decline in performance, signs of self-harm or a significant change in wellbeing, or signs of assault or unexplained injuries. Unexplained gifts or new possessions could also indicate that they have been approached by, or are involved with, individuals associated with criminal networks or gangs and may be at risk of criminal exploitation.
- 20.2** All staff should be aware of the range of risk factors which increase the likelihood of involvement in serious violence, such as being male, having been frequently absent or permanently excluded from school, having experienced child maltreatment and having been involved in offending, such as theft or robbery.

Further guidance for professionals can be found here:

[Advice to schools and colleges on gangs and youth violence](#)

[Criminal exploitation of children and vulnerable adults: county-lines](#)

[County Lines Toolkit For Professionals](#) includes information on the signs of a child's involvement in county lines, published by the Home Office and The Children's Society.

21.0 'Honour'-based abuse including FGM and Forced Marriage

- 21.1** Honour based abuse (HBA) can be described as practices which are used to control behaviour within families or other social groups in order to protect perceived cultural and religious beliefs and/or honour. The term 'honour-based abuse and violence' relates to the offender/s interpretation of the motivation for their actions. It is a violation of human rights and for young victims it is a form of child abuse and is a child protection matter.
- 21.2** HBA can affect people of all ages, but often begins early in the family home. Girls and women are particularly at risk; however boys and men are also affected and may be at heightened risk if there are factors around disability, sexuality and mental health. Those subjected to it may find it particularly difficult to seek help as usual avenues seeking help, through parents or other family members may be unavailable.

Safeguarding Policy – Education and Care

21.3 HBA can take many forms, it can include: forced marriage; female genital mutilation; Breast ironing; virginity testing and/or physical, sexual and economic abuse and coercive control.

Victims can experience multiple forms of abuse and multiple perpetrators can be involved.

21.4 If staff have a concern regarding a child or young person who might be at risk of HBA or who has suffered from HBA, they must speak to the DSL (or deputy/Safeguarding Lead). As appropriate, the DSL (or deputy)/ Safeguarding Lead will activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with the police and local authority children's social care.

21.5 Teachers, support staff, and regulated health and social care professionals in England and Wales, have a specific legal duty to report concerns regarding Female Genital Mutilation (FGM), ([under Section 5B of the Female Genital Mutilation Act 2003, section 74 of the Serious Crime Act 2015](#)) If, in the course of their work, they discover that an act of FGM appears to have been carried out on a girl under the age of 18, they must report this to the police. In suspected cases of FGM, staff must refer to the local authority as well as the police. The DSL/ Safeguarding Lead will assist and support staff with this.

21.6 Staff must read and be familiar with statutory guidance regarding reporting FGM: [Female Genital Mutilation: the facts](#)

21.7 Since February 2023, the legal minimum age to enter into a marriage in England and Wales is 18. In these nations, it is a crime to carry out any conduct whose purpose is to cause a child to marry before their eighteenth birthday, even if violence, threats or another form of coercion are not used. As with the existing forced marriage law, this applies to non-binding, unofficial 'marriages' as well as legal marriages.

The Forced Marriage Unit can be contacted for advice or information on 020 7008 0151 or email fm@fcdo.gov.uk

A [Forced marriage resource pack](#) has been designed to highlight examples of best practice and to help ensure that effective support is available to victims of forced marriage.

Multi-agency statutory guidance for dealing with **forced marriage**, can found at: [The right to choose government guidance on forced marriage](#)

21.8 The DSL/Safeguarding Lead must ensure that immediate concerns regarding potential abuse, harm, honour-based abuse, CSE and Trafficking or Radicalisation are shared **immediately** with the Regional Director and Chair of Governors, and that staff have documented them appropriately.

22.0 Preventing Radicalisation

Staff must be familiar with the Protecting Children from Radicalisation Policy

22.1 Outcomes First Group fully recognises its responsibility to have arrangements in place to safeguard and protect children and young people from radicalisation. [Section 26 of the Counterterrorism and Security Act 2015](#) places a statutory responsibility on schools and children's homes to 'have due regard to the need to prevent people from being drawn into terrorism'. This is known as the [Prevent Duty](#).

22.2 All staff must be aware of the signs and indicators of radicalisation. Staff must be proactive in reporting any concerns, regardless of how small they may be, to the DSL/Safeguarding Lead who must assist staff to report all concerns regarding radicalisation to the Police as well as the Regional Director. Staff must document their concerns appropriately.

Safeguarding Policy – Education and Care

21.3 To safeguard children and young people who are vulnerable to radicalisation, DSLs and Safeguarding leads will need to take a risk-based approach and consider an individual's behaviour in the context of wider influencing factors and vulnerabilities. Further information can be found at [Understanding and identifying radicalisation risk in your education setting](#)

21.4 DFE has produced a Self-assessment tool to help schools in England review their responsibilities under the Prevent duty, which can be found here: [Prevent duty self-assessment tool for schools](#). The tool helps schools to understand how well embedded their existing policies and practices are, and to encourage a cycle of continuous review and improvement. It contains requirements and recommended good practice activities to meet those requirements.

22.3 All staff must be aware of the local procedures relating to reporting radicalisation concerns.

23.0 Children and young people requiring Support with their Mental Health

23.1 The Group recognises that schools and children's homes have an important role in supporting the health and wellbeing of the children and young people we educate and support.

23.2 Mental ill-health can be an indicator of a child suffering or at risk of abuse, neglect or exploitation. All settings should have systems in place for identifying mental health problems and referring to appropriate agencies for additional support. This will ordinarily be with the consent of the child or young person and their family. All details of concerns and any referrals or other support arranged for the child/young person should be documented on the setting's electronic recording system.

Integrated Education and Care sites – please see **10.3.1** for recording and sharing information about safeguarding disclosures and concerns between the School and Home.

23.2 The [Mental Health and Behaviour in Schools guidance \(2018\)](#) provides advice on how to create a whole school culture in promoting positive mental health outcomes for children and young people.

Public Health England provide [Every Mind Matters](#) to help teach RSHE providing simple, practical advice for a health mind.

Information on the Group's [Wellbeing and Clinical Services for children & young people](#) can be found on Engage.

24.0 Physical Interventions

All staff must read and know the setting's Physical Intervention Policy and the Group's [Use of Restrictive Practices and Restraint Terms of Reference](#)

24.1 While every setting creates an atmosphere of nurturing, unconditional positive regard and warmth, the Group recognises that on occasion it may be necessary to use physical intervention to keep a child/young person safe. Physical intervention must be a last resort and must always be proportionate. Once the child/young person is safe and calm, it is essential that there is a debrief with them. It should be an open discussion with the member of staff encouraging them to talk about how they feel and understand what happened.

The intervention and the follow-up action must be recorded on the setting's Electronic Recording System.

24.2 If a child or young person makes an allegation after a physical intervention, it is important that the member of staff writes down as much information as possible. Staff must complete body maps immediately after the event and make an appropriate electronic record. Staff must also verbally inform the DSL (or deputy)/Safeguarding Lead as well as recording it onto the settings electronic recording system. **Medical attention must always be sought for the young person.**

Safeguarding Policy – Education and Care

Staff must inform their parents or carers/those with parental responsibility. Allegations of harm relating to physical interventions must be reported to the Regional Director, the Group Head of Safeguarding/Safeguarding Adviser (safeguarding@ofgl.co.uk) and the Local Authority Designated Officer or local equivalent.

Integrated Education and Care sites – please see **10.3.1** for recording and sharing information about safeguarding disclosures and concerns between the School and Home.

25.0 Allegations against staff

25.1 An allegation is any concern, complaint or disclosure that indicates a member of staff, agency staff, volunteer or contractor has:

- Behaved in a way that has harmed a child or may have harmed a child
- Possibly committed a criminal offence against or relate to a child
- Behaved towards a child or children in a way that indicates he or she may pose a risk of harm to children; or
- Behaved or may have behaved in a way that indicates they may not be suitable to work with children.

25.2 All allegations must be treated seriously. Staff must maintain an open mind and suspend all judgement. Allegations must never be dismissed. When managing allegations, it is important that staff maintain a level of professional curiosity. Staff have a responsibility to look after themselves and not to place themselves into situations which could present as unsafe. Staff must report any concerns to the Regional Director and the DSL/Safeguarding Lead.

25.3 When a child or young person makes an allegation about a member of staff, the member of staff receiving the complaint must:

- write everything down and document it on the setting's electronic recording system.
- immediately report the allegation to the DSL (or deputy)/Safeguarding Lead.

The DSL/Safeguarding Lead must:

- take all allegations seriously regardless of whether the child/young person has made previous allegations;
- report allegations to the Local Authority Designated Officer or local equivalent within one working day;
- ensure that they follow the Group's *Managing Allegations Against Staff Procedure*.

25.4 Part four of [KCSIE 2023](#) outlines the importance of retaining oversight of any concerns or allegations about agency or supply staff, volunteers or any member of staff employed by a third party working in the setting. Whilst the individual may not be employed by Outcomes First Group, **schools and children's homes must ensure** that allegations are managed properly.

[KCSiE 2023](#) states: *'In no circumstances should a school or college decide to cease to use a supply teacher due to safeguarding concerns, without finding out the facts and liaising with the LADO to determine a suitable outcome. Governing bodies and proprietors should discuss with the supply agency or agencies where the supply teacher is working across a number of schools of colleges, whether it is appropriate to suspend the supply teacher, or redeploy them to another part of the school or college, whilst they carry out their investigation.'*

25.5 If the allegation is regarding the Headteacher(or equivalent)/Registered Manager then the Regional Director must be informed immediately. They will then seek advice from the Local Authority Designated Officer or local equivalent.

25.6 All allegations made against staff must be reported to:

- the Regional Director
- Human Resources (hropertionsadvice@ofgl.co.uk)
- Group Safeguarding Team (safeguarding@ofgl.co.uk)

Safeguarding Policy – Education and Care

The Group recognises that managing allegations can be challenging and will support with the process. Please refer to the Managing Allegations Procedure for further details.

25.7 It is the responsibility of the DSL/Safeguarding Lead to ensure that all allegations are managed in line with local safeguarding partnership procedures.

26.0 Low-level concerns

All staff must read and follow the setting's *Low-level concerns guidance & procedures*, which reflects the statutory requirement for all schools and colleges in England ([KCSiE 2023](#)). The Group also requires our schools in Wales and Scotland to follow this policy and it provides good practice for other settings.

26.1 Staff must understand what low-level concerns are and be aware of the process for addressing low-level concerns.

The term 'low-level' concern does not mean that it is insignificant. A low-level concern is any concern, no matter how small, and even if no more than causing a sense of unease or a 'nagging doubt', that **an adult working in or on behalf of the setting** may have acted in a way that is inconsistent with the staff code of conduct, including inappropriate conduct outside of work, but does not meet the allegations threshold or is not considered serious enough to consider a referral to the local authority designated officer or local equivalent. ([KCSiE 2023](#))

Examples may include but are not limited to:

- being over friendly with children;
- having favourites; engaging with a child on a one-to-one basis in a secluded area or behind a closed door;
- using inappropriate sexualised, intimidating or offensive language.
- taking photographs of children on their mobile phone;
- erosion of boundaries

26.2 The Headteacher is the ultimate decision maker in respect of low-level concerns (Registered Manager in Children's Home)

All low-level concerns must be shared with the Headteacher (or equivalent) or DSL /Safeguarding Lead. The **DSL/Safeguarding Lead must inform the Headteacher** of all the low-level concerns, in a timely fashion according to the nature of each particular concern.

If there are concerns about the Headteacher /Registered Manager these concerns should be referred to a senior member of the Group (such as the Regional Director, Director of Operations, Chief Operating Officer or Chief Executive Officer). If there is a conflict of interest in reporting the matter to any of these internal colleagues, the concern should be reported directly to the local authority designated officer or local equivalent.

26.3 Low-level concerns which are shared about supply staff and contractors should be notified to their employers, so that any potential patterns of inappropriate behaviour can be identified.

26.4 Written records must be kept of the concerns in chronological order to establish a full picture of what is happening and if any child or young person may be at risk. Records should be reviewed regularly so that potential patterns of concerning, inappropriate, problematic or concerning behaviour can be identified.

Where a pattern of such behaviour is identified, the Headteacher/Registered Manager (or Regional Director if the concern is about the Headteacher/Registered Manager) should decide on an appropriate course of action.

27.0 Working with the Local Authority Designated Officer or local equivalent

In all referrals, the DSL is the lead professional within the School/ the Safeguarding Lead is the lead professional within the Children's Home, for ensuring that a timely response is received from the local authority. If a response is received which the DSL/Safeguarding Lead believes is inappropriate and does not prioritise the child/ young person's safety, this must be escalated to the Headteacher or Governors in the School/ Registered Manager or Responsible Individual in the Children's Home to agree further action.

28.0 Whistleblowing

28.1 Safeguarding is everyone's responsibility. The Group recognises that on occasion staff may feel that they are unable to tell someone within their immediate place of work about safeguarding concerns that they may have. The Group also recognises that children and young people will be unable to voice their concerns if they are in an environment where staff also fail to voice their concerns.

28.2 Staff have a duty first and foremost to the children and young people in their setting. Any concerns, regardless of how small they may seem, must be reported. DSLs/Safeguarding Leads, Headteacher and Registered Managers have a responsibility to ensure that they create an environment where staff feel safe to openly voice any concerns and feel listened to. It is also important that staff feel supported if concerns are raised about them. If staff see or hear about other colleagues' practice which they are concerned about, which potentially may cause emotional or physical harm to a child or young person, or if the standard of care being provided falls short of expectations, they must report this.

28.3 Outcomes First Group has an anonymous telephone support system (Safecall) where staff are able to share any concerns that they may have, safely and without fear of reprisal. All whistleblowing concerns will be taken seriously and treated as such.

28.4 Staff can call Safecall on **08009151571**, report online **www.safecall.co.uk/reports**, or email **outcomesfirstgroup@safecall.co.uk**

29.0 Digital and Remote Learning

Where digital learning and remote learning options are provided, all staff should be mindful that the **safeguarding policies & procedures and Code of Conduct & Ethics Policy continue to apply at all times when working online or offline at any location.**

29.1 The Group's Acorn Digital Learning provides online teaching for those who find themselves without access to a school setting, or are unable to attend school for medical, mental health, anxiety or behavioural reasons. Acorn Digital Learning have produced a Live Online Risk Assessment, and Student Remote Learning policy and template, which have been shared with all schools in the Group and can be utilised as required.

29.2 Data protection and GDPR considerations must be taken into account. This includes rules on signing children and young people up to online services, and staff accessing personal data when working at home. It is recommended that staff are regularly reminded of the data protection and GDPR policies and procedures, whether they are working on-site or remotely.

29.3 The guidelines for digital learning below must be followed:

- Ensure parents and carers are aware of online safety advice and resources, such as [Thinkuknow](#) , [Safer Internet Centre](#) , [Net-aware](#) , [Digital Parenting Pro](#)
- Staff and pupils should be fully dressed and take into account the background/ surroundings. Staff should use a communal area, anything in the background that could cause concern or identify family members/ personal information, should be removed or a sheet used.

Safeguarding Policy – Education and Care

- The teacher may need to give guidance to pupils to remove items from view. If a pupil is inappropriately dressed or in an unsuitable setting (e.g. a bedroom) they must be removed from the video call.
- If staff are concerned about a comment made online by a child or young person or the work they share, the staff member should take a screen shot and report it to the DSL/ Safeguarding Lead via MyConcern / CPOMS (or the setting's existing protocol as long as it is secure).
- Staff must not enter into one-to-one tuition voice or video call with an individual pupil or student without SLT agreement. If there is a need for single pupil interaction, please ensure that a colleague is added to the call, or that a parent is present with the pupil.
- If a staff member urgently needs to call a parent or pupil from their personal phone, the number must be withheld by dialling 141 first and a record of the call must be made (e.g. an email to the HT or DSL to explain the purpose of the call and any actions taken as a result).
- Home filters may block different content at a different level to the School's and Children's Home's filtering software; if this appears to be the case for one pupil in the group the teacher should revert to or suggest an alternative resource.
- Take care that any material provided to students to watch is age and developmentally appropriate. For instance, do not ask Year 9 pupils to watch a film with a 15 rating.
- Staff should model good online behaviour in all ways, including the language used to interact with children, young people and colleagues, which should be respectful at all times.
- Senior leaders should make clear to staff the operating times for online learning (for example, only during the normal school day); no school staff member should engage with or respond to any pupil outside these times.
- Clear guidelines for students connecting to a virtual classroom session will be given by the School and the teacher will check their understanding.
- The same principles apply to virtual meetings between staff and parents as face-to-face meetings.

Further helpful resources for digital learning:

- DfE advice for schools: [teaching online safety in schools](#)
- UK Council for Internet Safety (UKCIS) guidance: [Education for a connected world](#)
- UKCIS [External visitors guidance](#) helps schools and colleges to ensure the maximum impact of any online safety sessions delivered by external visitors.
- NSPCC: [Undertaking remote teaching safely](#)
- PSHE Association: [Guidance for teaching PSHE remotely](#)

30.0 Home visits

Where staff need to make home visits, they should be mindful of their own wellbeing and safety if conducting visits to the homes of children and young people and their families. Staff must follow the Group's lone working policy and any local procedures and guidance. This should prescribe that you must at least inform another member of staff of your whereabouts and the time you plan to return to the setting. Wherever possible, arrange for a colleague to accompany you. This is particularly important for visiting households with identified risks to the safety of professionals. You should discuss and assess those risks with the appropriate local authority.

31.0 Policy Review

This policy will be reviewed annually, as a minimum to ensure it is kept up to date with safeguarding issues as they emerge and evolve. Where necessary, updates will be made during the year.

We are part of the Outcomes First Group Family, by working together we will build incredible futures by empowering vulnerable children, young people and adults in the UK to be happy and make their way in the world.
